FAMILY AND SOCIAL SERVICES ADMINISTRATION

Division of Mental Health and Addiction

Indiana Government Center South

402 West Washington Street - W353

Indianapolis, IN 46204

PURPOSE OF DOCUMENT

This document contains reporting requirements for HOOSIER ASSURANCE PLAN PROVIDERS, for State Fiscal

Year (SFY) 2008 (July 1, 2007 through June 30, 2008) for ALL consumers who qualify for the Hoosier Assurance

Plan (HAP), along with those SED consumers under the DAWN Project who do not qualify for the Hoosier

Assurance Plan.

If your agency sub-contracts for any or all of these services, your agency is responsible for reporting the

information for those services from your sub-contractor(s). It is not the responsibility of your sub-contractor(s).

The purpose of this reporting package is to provide the Division of Mental Health and Addiction with contract

information regarding consumer eligibility/registration, performance indicator data, initiation/verification of

reimbursement claims, consumer service and revenue information, as well as meeting Federal Minimum Data Set

(MDS) requirements for substance abuse and mental health services.

It is recommended that each individual read this document in its entirety.

SFY 2008 Community Services Data System Instructions 5/14/2007

Page ${\tt i}$

SFY 2008 MAJOR CHANGES

There are several significant changes to the collection of data through the Community Services Data System for state fiscal year 2008 that will affect service delivery and data reporting. The most significant changes are as follows:

Service Delivery

Except for the "carve-outs" (ACT, SOF Agreements, Gambling, Deaf Services, and Methadone), payments to providers are no longer for specific consumers. This allows consumers to receive services from the provider(s) of their choice and allows the provider(s) to submit registration/demographic/outcome, encounter, and revenue data for any consumer being served. The changes also allow consumers to receive services from multiple providers simultaneously.

Annual "enrollments" have been eliminated. Each consumer will be "registered" in CSDS. Tracking of services and persons served will utilize an episode of care methodology. An episode of care is defined by an admission date and a discharge date. For SFY 2008, the admission date will be the date of the initial assessment for SFY 2008 (HAPI-A for adults and CANS for youth). The discharge date will be the date of separation from service. An episode of care has no time limitations other than it must be longer than one day. (A consumer may not be admitted and discharged on the same day.)

Adult Assessments

All adults must have a HAPI-A completed for SFY 2008. The HAPI-A may be administered between April 2007 and June 2007 for use in SFY 2008. This will allow providers to spread the workload for both assessment and reassessment. In addition to the HAPI LOF scores and agreement identifiers, providers are to submit data about the following outcomes for adults to be used for performance measurement as the "initial assessment":

- Living Arrangement
- Employment
- Substance Usage data (primary, secondary and tertiary substances, route of ingestion, frequency of use/intake, and age at first use/intoxication)
- ACT adults only
- Criminal Activity
- Supported Employment
- Integrated Dual Diagnosis Treatment
- Illness Management and Recovery
- Supported Housing
- Detailed-Not in Labor Force

Reassessment is required at the time of discharge and every 180 days between admission and discharge. For adults the reassessment requires reporting on the outcomes listed above.

Multiple episodes of care for a consumer will require reporting of admission assessment and reassessment data. However, the HAPI-A is only required once during SFY 2008.

Child and Adolescent Assessments

The HAPI-C Assessment Tool for youth is no longer required beginning in SFY 2008. This assessment is being replaced with the Child and Adolescent Needs and Strengths (CANS) assessment tool.

All youth, those with serious emotional disturbance (SED) and with addiction (CA), are required to have a CANS assessment administered by **a certified CANS user** and the data submitted to DMHA at the beginning of SFY 2008. Data submission for the CANS is **not the same as** CSDS data reporting. Only staff certified in the use of the CANS may use the tool; all CANS data reported must have the certified user's identification number.

The initial Registration/Demographic/Outcome Report for youth will also require reporting of the following outcomes:

- Living Arrangement
- Employment
- Substance Usage data (primary, secondary and tertiary substances, route of ingestion, frequency of use/intake, and age at first use/intoxication)

- Roles
- SOC
- HCBS PRTF Waiver youth through age 21 only
- Criminal Activity
- Detailed-Not in Labor Force (Applicable only if employment is reported as "4")

Reassessments using the CANS are required at discharge and at least every 180 days of continuous services to the youth. More frequent assessment is required if a more intense level of service is being requested. A separate manual for using the CANS is being written and will be available at: http://www.in.gov/fssa/mental/canstools.htm

Each reassessment of a youth requires re-submission of the Registration/Demographic/Outcome Report.

Data Reporting

Initial reporting and reassessment reporting will utilize the same data set, which has been named the Registration/Demographic/Outcome Report. (See page 5) There is no longer a separate record layout for Reassessment.

Encounter/Service Reporting requires that each encounter be reported. **Bundling** of encounters into one report for the month (or other time frame) is no longer permissible except for procedures/services which are intended to be 24-hours (residential and inpatient). For 24-hour programs, the encounter/service report may have a begin date and end date for the month in which services were provided. If there is an interruption in the 24-hour service (consumer is discharged and readmitted in the same month) each episode must be reported with beginning and end dates.

The other major changes to CSDS data fields are specific to Reason Code and episodes of care (meaning each admission through discharge). The following pages contain some questions submitted to DMHA regarding changes in CSDS with answers provided by DMHA.

COMMUNITY SERVICES DATA SYSTEM QUESTIONS FOR SFY 2008

1. With the changes for FY 08, will we continue to report months where there were no encounters, since the consumer may be receiving services at another center--I presume we continue to do so until we designate the chart as closed?

Yes, you should continue to submit an encounter record for each active consumer each month

2. Which consumers are getting rolled over for FY08. Is it all "active" consumers enrolled in FY07 or just those enrolled April - June? Is it adults and kids?

From the multiple discussions about whether or not to roll over any data from FY 07 into FY 08, we have decided not to do this. As of July 2007, each provider will need to submit the Registration/ Demographic/Outcome record for each consumer being served, regardless of age. For adults, the HAPI-A LOF scores may be obtained for FY 08 beginning in April 2007 (see next two paragraphs). For children, the CANS will be required for all youth served beginning in July.

Any adult consumer who the provider believes will be continuing in services as of July 2007 may be assessed, reassessed in April, May, or June with the HAPI-A. When the provider submits the Registration data set in July, the LOF scores from these HAPI-A's may be submitted with the Registration data set. The Assessment Date (field 16) should correspond to the actual date of the HAPI-A administration.

Providers are encouraged to spread the assessments over these months in order to avoid having to do so many assessments in July/August -- and reassessments all being due to January/February. For those consumers with a HAPI-A between April - June 2007, the HAPI-A does not have to be done in fiscal year 2008.

3. Are we expected to do registration data (including a HAPI-A or CANS) on all of our active consumers again in FY08?

A registration data set is expected for all consumers served in FY 08. (See above response.) The HAPI-A LOF scores are reported on the Registration/Demographic/Outcome record. (Also see above about when the LOF is obtained.) The CANS data goes into a different database and is not part of the Registration/Demographic/Outcome record. Information is being shared with all providers about submitting CANS data. If you have not received the information about Importing/Exporting data from/ to the Indiana Behavioral Health Assessment System (IBHAS), please contact John Dwenger (john.dwenger@fssa.in.gov) and he will send the document to you.

4. When we submit a reassessment (outcomes data) I understand that we send in the registration file but for all the fields other than outcomes data, do we send blanks or do we send old data or are we expected to provide new data each time (i.e. financial data, diagnosis, disability, Medicaid indicator, funding indicator, etc)?

Each field in the record should have some data. It may be the old data or it may be updated data. We do not know how each provider's database works, but for those who have communicated with us, this is a basic set of data held in the database and updated by the provider as needed. It is also a subset of other data collected by the provider. So submitting all data in this particular record layout may be a routine that runs at some point in time and is batched to CSDS.

5. We are wondering about financial eligibility. We usually assess that at the time of enrollment in the fiscal year. When are you expecting us to do that on an on-going basis? A large number of our consumers are chronic and have been with us for years so once we register them you will get financial information and I know you want reassessment information every 6 months but when are their finances ever reviewed again for eligibility?

This is based on your business practices. DMHA does not have a mandate that you reassess financial status annually. However, the expectation of DMHA is that each provider will ensure that persons in HAP are at or below 200% of the federal poverty level.

- 6. What distinguishes a Reassessment record from a Registration record? Is it the Transaction Code? There is not a separate record layout for a Reassessment in the Draft Manual.
 - Beginning in FY 08, there will not be a separate reassessment record layout. We are adding one field to the existing Enrollment Record Layout (Field 79 -- Reason Code) which will tell the system that the submission is a reassessment. A Reason Code "0" is to be used for the first submission of the Registration record for each episode of care.
- 7. Beginning July 1 2007, what should the value of Reason Code (F79) be in a first time submission of a Registration/Demographic/Outcome (RDO) record for the purpose of registration?
 - DMHA has added Reason Code "0" for use whenever a Registration/Demographic/Outcome record is submitted to activate or re-activate the consumer in CSDS. Use of this code will begin an episode of care on the date given in Field 6 (Registration Date).
- 8. Consumers enrolled in FY07 with Enrollment Dates March through June 2007 will require Registration in FY08 via RDO records submitted sometime after July 1 with Reason Code = 9. Is this correct? LOFs do not need to be in these records. Is this correct?
 - A Registration/Demographic/Outcome record is required for each consumer served July 1, 2007 and thereafter. These records will use Reason Code "0". LOF scores for adults that were obtained in April, May or June 2007 can be resubmitted on the Registration/Demographic/Outcome record and the date of the actual assessment may be entered in Field 16 (Assessment Date).
- 9. I have registered a consumer in FY08 with a Low Functioning Agreement ID (F12) (example MI1). Prior to discharge and prior to 180 days I learn this consumer has a newly uncovered substance abuse diagnosis. I want this consumer to be recognized by the state as a substance abuse consumer. How do I update the consumer's registration to reflect the change to his Agreement ID?
 - Re-submit the Registration/Demographic/Outcome record using Transaction Code "1", Reason Code "9" and the new Agreement Identifier. All other fields in the record will likely be the same as originally submitted.
- 10. Another MHC registers a consumer, but then the consumer becomes active at a second MHC. The second MHC notices the consumer is active in CSDS. Is the second MHC required to submit a RDO with LOF scores?
 - The second provider will need to submit a Registration/Demographic/Outcome record for the consumer in order to receive credit for serving the consumer. For fiscal year 2008, each provider that registers an adult consumer will need to complete the HAPI-A.
- 11. Can you issue a number for HAP in the cases where the consumers are foster children and the foster parents are not given their SS#?
 - Recently, the Department of Child Services issued a memo to the local offices restricting the sharing of social security numbers. However, the last four digits of the social security number may be released. If you admit a child and the caregiver does not know the social security number, you may contact the local child services office and ask for the last four digits. If this does not work, please notify DMHA. In some cases as a last resort, DMHA can assign numbers for you.
- 12. How and when do we give you HAP information obtained from April 2007 thru June 2007? Do we have to send it now and on July 2?

You should submit an enrollment for any new consumer for the remainder of fiscal year 2007. HAPI-As completed during April through June for persons already enrolled should be reported with the first registration in fiscal year 2008.

- 13. Since the registration/ outcome record is now a single file instead of separate enrollment and reassessment, does that mean we can just use commas for the fields already submitted when consumers are "registered". This is assuming none if that data has changed. The outcome data set is much smaller so I just need to be clear on how the file should look going into CSDS.
 - No. You will not use commas. The entire Registration/Demographic/Outcome record data set is to be submitted each time you report reassessment information.
- 14. There is no reason code of initial registration so I assume that field is left blank the first time around.

DMHA has added Reason Code "0" for use whenever a Registration/Demographic/Outcome record is submitted to activate or re-activate the consumer in CSDS. Use of this code will begin an episode of care on the date given in Field 6 (Registration Date).

15. When will the FY08 test system be available on CSDS for testing purposes?

The system will be available at the beginning of June 2007.

16. Since the CANS instrument is a separate system, how will we know it is time for a 180 day reassessment? How will this be tracking for compliance in CSDS or will you just look for the other outcome data to meet the 80% compliance?

DMHA will be monitoring reassessments for youth during fiscal year 2008.

17. I'm being told that the people training super users on the CANS are telling them they don't have to do reassessments. The CSDS document says they do at discharge or every 180 days. Which is correct?

This is absolutely incorrect. Evidently there is some misunderstanding. We have contacted the trainers who state that they are telling super users that reassessments are required. We will be issuing the manual for the Indiana Behavioral Health Assessment System (IBHAS) and will advise providers when it is posted.

- 18. If we post questions to the CSDS forum page is someone monitoring them? I noticed one out there from another center regarding FY08 changes.
 - Yes. We are monitoring the CSDS forum page.
- 19. As we are looking at the processes for FY08 and trying to setup our system for tracking information for next year has a decision been made on how we are going to submit the registration information? Will we submit a registration date and a HAP Assessment date?

Yes, both a registration data and an assessment date are included. Tracking when reassessments are due will be based on the actual assessment date provided.

20. Will the 180 day reassessment be pulled then from the HAP Assessment date or the CANS Assessment dates?

DMHA will use the assessment date provided in the specific database – CSDS or IBHAS.

21. I'm also getting questioned as to when we can expect to receive the Consumer Letters for the HAP & CANS? Will the letter address those consumers that have the HAP assessment done in April – June?

We are working on these letters. Will let you know more soon.

22. If the provider changes the diagnosis and this change results in a change in Agreement Identifier (MI1, MI5, etc.) can and should this information be updated in CSDS?

Yes, the information should be updated in CSDS by submitting a Registration/ Demographic/Outcome record with Transaction Code 1 and Reason Code 9.

23. Can the provider continue to batch all Registration/Demographic/Outcome records for both the "carveouts" and the non-carved out population groups?

Yes. For the carve-outs, the Funding Indicator should be 1 if a payment is being requested. For all regular registrations, the Funding Indicator is 2 and for updated reporting for the carve-outs, the Funding Indicator is also 2.

24. What is the reason code for the initial registration?

DMHA has added Reason Code "0" for use whenever a Registration/Demographic/Outcome record is submitted to activate or re-activate the consumer in CSDS. Use of this code will begin an episode of care on the date given in Field 6 (Registration Date).

25. Can encounter data be submitted as a daily bundle?

Submitting data as a daily bundle should be the provider's business decision. Submitting data weekly or monthly is not acceptable. (except for 24 hour programs)

26. What if we register someone and they do not return for services?

Consumers that do not return for services should be discharged according to your agency policies. The discharge must be reported to DMHA using CSDS.

27. A consumer is registered, receives services and discharged. Two months later, the consumer presents in need of services? When does the clock start for reassessment?

Registration, encounter and discharge data are submitted for each episode of care. If a consumer presents for another episode of care, updated registration data must be submitted, but another HAPI does not have to be done. The Reassessment clock begins on the date the new episode of care begins.

28. Please clarify the definition of bundling data (for non 24 hour services). Our agency currently reports each encounter separately but submits only 1 report (containing all of the info on the separate encounters) at the end of the month. Is this ok or is this considered bundling? Do they need to submit separate encounters daily?

If the current practice does not allow DMHA to know on what actual date an encounter occurred, then this is considered bundling of encounters. For example, some providers will submit encounter data at the end of the month that says the consumer received xx units of xx service/procedure beginning on the first of the month and ending on the last day of the month. This is bundled. For example, Johnny received 150 units of case management between 3/1/07 and 3/31/07. We do not know on what days Johnny actually received a service. We only know volume for the month.

Within the Performance Measure Definitions, one measure (retention in treatment) requires that DMHA be able to count 3 different encounters on 3 different days during the month. With bundled encounter reporting, this calculation is not possible. Therefore, DMHA is requiring that encounters be reported by day except for 24 hour programs which may report by month. Multiple units may be reported together for a day (example: 16 units of case management on 3/14/2007) even if the units occur at different times during the day.

DIVISION OF MENTAL HEALTH AND ADDICTION and the COMMUNITY SERVICE DATA SYSTEM

OVERVIEW

The Family and Social Services Administration\Division of Mental Health and Addiction (DMHA) continues

to use the Community Services Data System (CSDS) to collect data about consumers being served by the

public mental health and addiction system in Indiana. The system utilizes electronic transmission of data

and on-line access via the World Wide Web. The application supports both consumer tracking and claims

reporting.

INTRODUCTION

A Registration is qualifying as eligible for the Hoosier Assurance Plan of the Division of Mental Health

and Addiction for classes of services according to defined groups (i.e., Substance Abuse, Seriously

Emotionally Disturbed, Seriously Mentally III, Addicted Women with Dependent Children or Pregnant, Co-

Occurring Disorders, Compulsive Gambling Addiction, etc.). Beginning in SFY 2008 an individual may

be registered by multiple providers, each of which may submit data pertaining to demographic

information, assessment, services provided, and revenue generated.

WEB-SITE

The Community Services Data System web-site address is: CSDS.FSSA.IN.GOV

It is recommended that you use Internet Explorer version 5.0 or greater to access the site. For

questions regarding authorization and use of the web-site, please contact Paula Barrickman at 317-

232-7877 or paula.barrickman@fssa.in.gov.

NOTE: All data for SFY 2008 must be reported in CSDS no later than

August 15, 2008. This includes enrollments and all follow-up data

1

reporting.

SFY 2008 Community Services Data System Instructions First Printing 05/16/2007

CRITERIA FOR ENROLLMENT (SFY 2008)

A consumer may be registered by the agency if he/she meets conditions in Group I, II and at least one (1) criteria in Group III:

GROUP I

Can be defined under at least one agreement code (see pages 16-20).

GROUP II

Whose residential condition is defined within one of the ninety-two counties within Indiana (see page 37)

GROUP III

The consumer:

- (1) Is enrolled in MEDICAID
- (2) Is enrolled in Food Stamps
- (3) Is enrolled in TANF
- (4) Can indicate being at or below 200% of poverty
- (5) Can indicate that the difference between the income level and the consumer's "out-of-pocket" mental health and/or addiction treatment costs for the previous year equals less than 200% of poverty level
- (6) Can indicate that payments on incurred gambling debt, subtracted from reported income in determining the enrollees income, equal less than 200% of the federal poverty level

HHS Poverty Guidelines

Tillo Foverty Guidelines			
Size of Family Unit *	100% Poverty Annual *	200% Poverty Annual	250% Poverty Annual
1	\$10,210	\$20,420	\$25,525
2	\$13,690	\$27,380	\$34,225
3	\$17,170	\$34,340	\$42,925
4	\$20,650	\$41,300	\$51,625
5	\$24,130	\$48,260	\$60,325
6	\$27,610	\$55,220	\$69,025
7	\$31,090	\$62,180	\$77,725
8	\$34,570	\$69,140	\$86,425
For each additional person, add	\$3,480	\$6,960	\$8,700

^{*} SOURCE: Federal Register, Vol. 72, No. 15, January 24, 2007, pp. 3147-3148.

100% OF POVERTY ANNUAL is derived from the Department of Health & Human Services poverty guidelines for all states (except Alaska & Hawaii) and the District of Columbia. The 200% OF POVERTY ANNUAL was derived by doubling the 100% of Poverty Annual. The 250% OF POVERTY ANNUAL FOR TANF was derived by multiplying 100% of poverty by 2.5 (used for TANF only).

SUBMITTING DATA

Consumers may be registered manually or via batch submission through CSDS.

BATCH SUBMISSION

The following information is key to successfully submitting batch records. The following pages provide all

the necessary file layouts.

Fields are comma delimited and all records are separated by a carriage return. Each batch record has a

field defined for a transaction code to identify the kind of record being processed (1 for Add or 2 for

Change).

Due to the nature of the batch submissions of data, it is important to note that all new REGISTRATION/

DEMOGRAPHIC/ OUTCOME records must be submitted and processed PRIOR to the submission of

Encounter/Service and Revenue data. For instance, if a Registration file is submitted, and then a service

file, it is possible for our system to process the service file prior to completing the Registration file, thus

causing the service records to reject (Registration not found). Registrations should be submitted, and when

a confirmation of the processing is returned, the remaining files should be submitted.

CRITICAL FIELDS

Critical Fields must be valid for records to be successfully submitted. The "ADD" column designates those

critical fields for records being created in the CSDS. The "UPDATE" column identifies the key fields

necessary to submit updates to records that already exist in the system. Deletes of registration records WILL

NOT be accepted by batch submissions. A Provider cannot delete registrations once they are into the

system. Deletion of registration records may be handled by the Division of Mental Health and Addiction, at

the request of the Provider, by contacting Paula Barrickman at 317-232-7877 or

paula.barrickman@fssa.in.gov. Revenue and Encounter/Service records cannot be updated by batch

Submission but may be updated by using the on-line consumer enrollment screen. Deletion of Encounter and

Revenue batch submissions can be accomplished by utilizing the "Delete Batch" button found on the Batch

List screen.

FUNDING INDICATOR

DMHA, via CSDS will allow funding, per consumer (i.e., registration) for the carve-outs. Carve-outs include

3

the following agreement types:

Assertive Community Treatment (ACT)

State Operated Facility (SOF)

Special Services (SPL)

Gambling (GAM)

• Methadone (SMO)

• Deaf. (DGM, DED, DMI, or DCA)

If funding is available, the consumers should be coded under Funding Indicator as a "1" (register this individual and request funds).

When registering consumers in these "carve-out" groups in CSDS, and funding is not available, please use Funding Indicator "2" (register this individual, but funds are not requested). **NOTE:** If, a Provider batches in more consumer records with a Funding Indicator of "1", than their contract allows, the data system will reject all submissions within the <u>agreement type</u>. These registrations will need to be changed on your next submission with the appropriate number of Funding Indicator "1" and all records over the contract limit with a Funding Indicator "2".

To review the current balance(s), please log-on to CSDS. Select "Reports" and then select the report entitled "MCP Contracts".

For all consumers not in one of the six (6) "carve-out" groups, the funding indicator field on the Registration/Demographic/Outcome record will be Funding Indicator "2"

SUBMISSION EDIT

To complete processing on rejected record(s) the rejected record(s) should be corrected by using the Error Report detailing the error(s). Rejected record(s) can be re-submitted in subsequent submissions. Since the system is on-line, you no longer need to wait until the following month to submit corrections.

CORRECTING ERRORS

Errors appearing on the Error Report are classified as being either a critical [did not get stored in the Community Services Data System], or a non-critical [stored on the Community Services Data System]. For those records with critical errors, the record(s) must be re-submitted with the data corrected. For the non-critical errors, corrections can be made on-line, or by submitting the file with a transaction code of "2" (update), containing the changed/corrected data fields. Remember only those fields that you are wishing to correct are to appear in the commaseparated file, along with the key fields.

If you BATCH submit Registration/Demographic/Outcome, Encounter/Service, or Revenue Records and you receive rejected records, you should ONLY re-submit the REJECTED records, not the entire batch. If you re-submit the entire batch, the previous records will receive duplicated information. If you need further assistance or clarification please contact Paula Barrickman at 317-232-7877 or paula.barrickman@fssa.in.gov.

Updating Fields in the Registration/Demographic/Outcome Record

Fields in the Registration/Demographic/Outcome Record may be updated to correct errors. Updating requires re-submission of the entire record set using Transaction Code 2 (Change).

DATA RECORD FORMATTING

REGISTRATION/DEMOGRAPHIC/OUTCOME RECORD LAYOUT

OVERVIEW

The first submission of this record will contain the registration and initial assessment data collected by the Provider. This same record layout is to be used for each reassessment and discharge.

FREQUENCY OF SUBMISSION

This record can be received at any time. Edits will be executed immediately and the record will either be rejected or accepted.

NOTES:

Field 29 – Level of Function Factor (N) is a critical field only for HAPI-A Assessments.

Field 30 – SOGS Level of Function is a critical field only if the Agreement ID Is GAM or DGM.

Field 35 - Medicaid ID is a critical field only if the Medicaid Indicator is "1".

Field 41 – Legal Basis of Commitment is a critical field only if the Source of Referral is "7".

Field 64 – Roles is a critical field for consumers age 17 and under.

Field 66-SOC is critical field for consumers age 17 and under.

Field 67 - HCBS Waiver is a critical field for consumers age 21 and under and are enrolled in Medicaid.

Field 78 – Detailed-Not in Labor Force is a critical field only if the "Employment" is coded as "4".

FOLLOW-UP DATA REPORTING REQUIREMENTS

Follow-up data includes the reporting of the consumer's Reassessment(s) data, Encounter/Service

data, and Revenue data.

NOTE: Failure to report Reassessment data, Encounter/Service data, and Revenue data, as

outlined in the following sections below, will affect your performance measures.

REASSESSMENT REPORTING REQUIREMENT

DMHA will require that 80% of your consumers will have either a Discharge reassessment or a

6 month reassessment and all required data, or a Discharge reported in CSDS.

The HAPI-C Assessment Tool (for youth) is no longer required beginning in SFY 2008. This

instrument is being replaced with the Child and Adolescent Needs and Strengths (CANS) assessment

tool that is required for all children meeting the HAP eligibility criteria. Reassessments using the

CANS are required at least every 180 days of continuous services to the youth and more frequently if a

more intense level of service is being requested or if services end (discharge). A separate manual

for using the CANS is being written and will be available at:

http://www.in.gov/fssa/mental/canstools.htm

The HAPI-A Assessment Tool is required for each adult served during SFY 2008. HAPI-A scores

collected between April 1, 2007 and June 30, 2007 may be reported on the first Registration/

Demographics/ Outcomes record submitted in SFY 2008. When the Registration/Demographic/

Outcome record is submitted after July 1, 2007, provide the date of the record in field 6 (Registration

Date) and the actual date of the HAPI-A in field 16 (Assessment Date).

Reassessments for adults and youth are required after 6 months of treatment and/or upon discharge.

The reassessment consists of reporting "Outcome Measures" by resubmitting the Registration/

Demographic/ Outcome data set with updated information on the consumer in the following areas:

Living Arrangement

Employment

 Substance Usage data (primary, secondary and tertiary substances, route of ingestion, frequency of use/intake, and age at first use/intoxication)

9

age at first use/intoxication
ACT – adults only

• Roles – youth only

• SOC – youth only

• HCBS - PRTF Waiver - youth through age 21 only

Criminal Activity

Supported Employment – adults only

Integrated Dual Diagnosis Treatment

- Illness Management and Recovery
- Supported Housing
- Detailed-Not in Labor Force (Applicable only if employment is reported as "4")

If a consumer is reported in CSDS with a Reason Code of "4"-Discharge, "5"-Prision, or "6"-Deceased, DMHA will not require that the Living Arrangement, Employment, Substances Useage data, etc. be updated since the consumer will be considered as "inactive" in CSDS. However, if information is available in the clinical record which can be used to update demographic and/or outcomes data for these consumers, submission of this reassessment information is encouraged.

If the consumer has completed treatment and is mutually discharged (Reason Code "3") at any point during the state fiscal year, re-submit the Registration/Demographic/Outcome record for the consumer by using "0" for the LOF scores and also complete the required fields of Living Arrangement, Employment, Substance Usage data (primary, secondary and tertiary substances, route of ingestion, frequency of use/intake, and age at first use/intoxication), Roles, ACT, SOC, HCBS Waiver, Criminal Activity, Supported Employment, Integrated Dual Diagnosis Treatment, Illness Management and Recovery, Supported Housing, and, if applicable, Detailed-Not in Labor Force. Once a consumer is reported as Reason Code "3", the consumer will be considered as "inactive" in CSDS.

Please see the "Reason Code" definition on pages 30-31 for additional information regarding the use of field 79 (Reason Code).

If the consumer has been "discharged", "imprisoned", or "deceased", re-submit the registration/ demographics/ outcomes record for the consumer by using "0" for the LOF scores. If the Provider has recently completed a reassessment for the consumer, please use the valid scores. Do not repeat assessment scores from previous assessments already reported in CSDS.

Please utilize the <u>Missing Assessment Report</u> in CSDS to see which consumers need to have Outcome Measures reported.

ENCOUNTER/SERVICE RECORD REPORTING REQUIREMENT

Encounter/Service Codes are listed in Attachment A of this document. This portion of the CSDS instruction manual is considered as a "work in progress" and will be updated throughout the year as new service codes are added or deleted to the list. If a code is not listed, the Provider should not report that code until DMHA has approved the code for CSDS. The Provider is to make a written request to DMHA (Attn: Ramona Ploss) to have the new service code added. (Please note that DMHA, in partnership with the providers, plans to review all the procedure codes currently in use by the system during SFY 2008 with the expectation of reducing the number of procedure codes available for use. Therefore, any request for additional codes should include a justification for the addition.)

Encounter/service data is not to be "bundled" (that is, units from multiple days submitted as one encounter) for any non-24 hour services. For programs that provide 24-hour care (such as residential and inpatient programs), data may be reported for the month with begin and end dates being the first day of service in the month and the end date being the last day prior to the date of discharge from the program.

Example: Consumer is in residence on the first day of August and is discharged on the 17th of August – Begin date is 08/01/2007 and end date is 08/16/2007.

Example: Consumer is admitted to program on August 13 and remains in residence on the last day of August – Begin date is 08/13/2007 and end date is 08/31/2007.

Encounter/Service data must be submitted monthly and on all active consumers. The Encounter/Service data is to be reported within 44 days of the end of the month in which the service occurred.

Example: All encounter/services provided to the consumer for the month of July should be reported to CSDS by September 12; all encounter/services provided in August should be reported to CSDS by October 13; all encounter/services provided in September should be reported on CSDS by November 13; and so on.

Please utilize the <u>Missing Encounter Report</u> on CSDS to see which consumers are missing monthly service data.

Reporting of Procedure Code

If you report a Procedure Code (field 9) do not use zero "0" on the Encounter Units (field 10) and remember to include the Encounter Value (field 11), if possible.

If the Consumer Did Not Receive Service During the Month

Unless the consumer is discharged, imprisoned, or deceased, the Provider must still report a record for the month, even if encounter/services **did not** occur. To do this, report the "begin date" (field 4) of the month and the "end date" (field 5) of the month. Leave the procedure code blank (field 9) and report zero for the encounter unit (field 10) and encounter value (field 11). Please complete all other fields if updated information is available.

Example: MAR19620606F8787 was enrolled on July 16, 2007. She did not receive services the month of November

Record submitted for example would include:

FIELD#	FIELD NAME	EXAMPLE
1	Provider Number	777
2	Transaction	1
3	Unique Identifier	MAR19620606F8787
4	Encounter Begin Date	20071101
5	Encounter End Date	20071130
6	Sub Provider Code	
7	Diagnosis Code 1	
8	Diagnosis Code 2	
9	Procedure Code	
10	Encounter Units	0
11	Encounter Value	0
12	Clinician Level	
13	3 rd Party Billing Indicator	

If the consumer is discharged (mutual or otherwise), imprisoned, or deceased, this information will need to be reported in the Registration/Demographic/Outcome record, field **79** (Reason Code). This data reporting will notify DMHA not to expect future encounter/service data.

Reporting of Billable and Non-Billable Services on the Encounter/Service Record

The Provider must report all billable and non-billable services provided to the consumer.

Excessive use of code 90899 (unlisted psychiatric service or procedure) is not sufficient. If the Provider is providing service(s) that cannot be defined by the other encounter/service code(s) listed, please contact Paula Barrickman at 317-232-7877 or paula.barrickman@fssa.in.gov so that the service code list can be updated to reflect those services that your agency is truly providing.

ENCOUNTER/SERVICE RECORD LAYOUT

OVERVIEW

This record contains Encounter/Service data collected by the Provider.

FREQUENCY OF SUBMISSION

This record can be received at any time **the consumer is registered in CSDS**. Edits will be executed immediately and the Encounter/Service will either be rejected or stored in the database. This frequency does NOT replace the contract terms for service information and submission criteria.

NOTE

Negative Units and Negative Values are allowed.

FIELD#	FIELD NAME	FORMAT RECOMMENDED LENGTH	CRITICAL FIELDS
1	Provider Number	4	4
2	Transaction	1	4
3	Unique Identifier	16	4
4	Encounter Begin Date	YYYYMMDD	4
5	Encounter End Date	YYYYMMDD	4

9	Procedure Code	5	4
10	Encounter Units	4	4
11	Encounter Value	5	4
12	Clinician Level	2	4
13	3rd Party Billing Indicator	1	4

REVENUE REPORTING REQUIREMENT

Revenue data is to be reported monthly for active consumers. The Revenue data is to be reported within 44 days of the end of the month.

Example: All revenue received for the month of July should be reported to CSDS by September 12; all revenue received in August should be reported to CSDS by October 13; so on and so on.

If revenue was not received during the month, report zero "0".

REVENUE RECORD LAYOUT

OVERVIEW

This record contains Revenue data collected by the Provider.

FREQUENCY OF SUBMISSION

This record can be received at any time **after the consumer is registered in CSDS**. Edits will be executed immediately and the Revenue record will either be rejected or stored in the database.

NOTE

Revenue amounts may be negative.

FIELD#	FIELD NAME	FORMAT RECOMMENDED LENGTH	CRITICAL FIELDS

11	Revenue, Other	5	4
12	Revenue, 3rd Party Other	5	4

Site review teams DMHA will continue to contract with a site review team, as in past years. The site review team will review the following areas: HAPI-A, Registration/Demographic/Outcome data, encounter/service data, revenue data, and reassessment data. If the data is not available in the CSDS for the site review team's use, a second audit may be required, and will be at the expense of the provider.

THINGS TO KEEP IN MIND

- The CSDS Web Address is CSDS.FSSA.IN.GOV
- If a PROVIDER submits more Funding Indicator "1" records than their contract allows (for ACT, SOF, SPL, GAM, SMO, DGM, DED, DMI, or DAC), the Data System will reject ALL consumers within a POPULATION if submitted by batch. Providers entering consumer data manually, through the input screens, will have the record rejected at the point that funding is no longer available.
- All registrations require the use of Funding Indicator "2". Only the carve-out groups in the above bullet may be submitted using Funding Indicator "1".
- All SOF and SPL consumers must be listed on the pre-approved manifest, which is maintained by the Division of Mental Health and Addiction. For questions concerning the SOF and SPL enrollments, manifest listing, and pre-approval, contact Kendra Ballenger at 317-234-2729.
- For questions regarding the Risk Level Flow Charts, contact Ed Ward at 317-233-9163.
- For data policy, procedure, use of this manual, and the CSDS, contact Paula Barrickman, 317-232-7877.

POPULATION (AGREEMENT TYPE) DEFINITIONS

SERIOUSLY MENTALLY ILL ADULT (MI)

DEFINITION

- (A) The individual has a mental illness diagnosis under the Diagnostic and Statistical Manual of Mental Disorders, (DSM-IV), published by the American Psychiatric Association.
- (B) The individual experiences significant functional impairment in two (2) of the following areas:
 - (i) Activities of daily living.
 - (ii) Interpersonal functioning.
 - (iii) Concentration, persistence, and pace.
 - (iv) Adaptation to change.
- (C) The duration of the mental illness has been, or is expected to be, in excess of twelve (12) months. However, adults who have experienced a situational trauma do not have to meet the durational requirement of this clause; **AND**
- (D) In the professional opinion of the clinical staff, the person is considered to be Seriously Mentally III.

CHRONICALLY ADDICTED (SA or CA)

DEFINITION

- (A) The individual has a Substance-Related Disorder in DSM-IV.
- (B) The individual experiences significant functional impairments in two (2) of the following areas:
 - (i) Activities of daily living.
 - (ii) Interpersonal functioning.
 - (iii) Ability to live without recurrent use of chemicals.
 - (iv) Psychological functioning.
- (C) The duration of the addiction has been in excess of twelve (12) months. However, individuals who have experienced amnesic episodes (blackouts), or have experienced convulsions or other serious medical consequences of withdrawal from a chemical of abuse, or who display significant dangerousness as a result of chemical use, do not have to meet the durational requirement; AND
- (D) In the professional opinion of the clinical staff, the person is considered to be Chronically Addicted.

CHRONICALLY ADDICTED WOMAN WITH DEPENDENT CHILDREN OR PREGNANT (SW or AW)

DEFINITION

- (A) The individual shall meet the definition of Chronically Addicted; AND
- (B) Have dependent children receiving child care, or be pregnant at the date of registration

OR

(C) Women who are attempting to regain custody of their children.

CO-OCCURRING DISORDERS

(CM)

DEFINITION

- (A) The individual has a substance-related disorder in DSM-IV in the following categories: 303.xx to 305.xx (except 305.10 or 305.90) or 291.xx or 292.xx. **AND**
- (B) The individual has a mental illness diagnosis under DSM-IV of 295.xx to 298.xx.
- (C) The individual experiences significant functional impairments in two (2) of the following areas:
 - (i) Activities of daily living.
 - (ii) Interpersonal functioning.
 - (iii) Ability to live without recurrent use of chemicals.
 - (iv) Psychological functioning.
- (D) The duration of the addiction has been in excess of twelve (12) months. However, individuals who have experienced amnesic episodes (blackouts), or have experienced convulsions or other serious medical consequences of withdrawal from a chemical of abuse, or who display significant dangerousness as a result of chemical use, do not have to meet the durational requirement; **AND**
- (E) The duration of the mental illness has been, or is expected to be, in excess of twelve (12) months. However, adults who have experienced a situational trauma do not have to meet the durational requirement of this clause; AND
- (F) In the professional opinion of the clinical staff, the person is considered to be both seriously mentally ill and chronically addicted.

SERIOUSLY EMOTIONALLY DISTURBED CHILDREN (LESS THAN 18 YEARS OF AGE) (SED)

DEFINITION

- (A) The child has a mental illness diagnosis under DSM-IV.
- (B) The child experiences significant functional impairments in at least one (1) of the following areas:
 - (i) Activities of daily living.
 - (ii) Interpersonal functioning.
 - (iii) Concentration, persistence, and pace.
 - (iv) Adaptation to change.
- (C) The duration of the mental illness has been, or is expected to be, in excess of twelve (12) months. However, children who have experienced a situational trauma, and who are receiving services in two (2) or more community agencies, do not have to meet the duration requirement of this clause; **AND**
- (D) In the professional opinion of the clinical staff, the child is considered to be Seriously Emotionally Disturbed.

COMPULSIVE GAMBLING ADDICTION (GAM)

DEFINITION

- (A) An individual who meets criteria for Axis-I diagnosis of pathological gambling as set out in the DSM-IV,
 Diagnosis 312.31, Pathological Gambling; AND
- (B) The individual continues gambling behavior despite repetitive harmful consequences.

Note: Gambling requirements:

The South Oaks Gambling Screen (SOGS) is a screening instrument to assess the need for gambling treatment. Consumers completing the SOGS are to be given two scores for each question; a lifetime score and a score for the past twelve months. Consumers scoring more than a five for the past year on the scored questions may preliminarily be considered pathological gamblers. Consumers scoring three or more for the past year on the scored questions may preliminarily be considered problem gamblers.

Following completion of the SOGS, consumers are to be assessed for the DSM-IV criteria for gambling. Consumers must meet five of the ten criteria for the past year to be a pathological gambler, and must meet three or more criteria for the past year to be considered a problem gambler.

Please be aware that reporting a <u>SOGS score of 2 or less is not acceptable</u> and the consumer shall not be assigned under the GAM and DGM agreement types in CSDS.

METHADONE ONLY (SMO)

DEFINITION

- (A) A person who meets the diagnostic criteria of being Chronically Addicted: AND
- (B) is determined to need methadone maintenance.

DEAF CHRONIC ADDICTION (Hard Of Hearing) (DCA)

DEFINITION

- (A) A person who meets the diagnostic criteria of being Chronically Addicted; AND
- (B) meets the definition of Deaf/Hearing Impaired.

DEAF SERIOUSLY MENTALLY ILL (Adults) (Hard Of Hearing) (DMI)

DEFINITION

- (A) A person who meets the diagnostic criteria of being Seriously Mentally III; AND
- (B) meets the definition of Deaf/Hearing Impaired.

DEAF SERIOUSLY EMOTIONALLY DISTURBED (Children) (Hard Of Hearing) (DED)

DEFINITION

- (A) A person who meets the diagnostic criteria of being Seriously Emotionally Disturbed; AND
- (B) meets the definition of Deaf/Hearing Impaired.

DEAF GAMBLING (Hard Of Hearing) (DGM)

DEFINITION

- (A) A person who meets the diagnostic criteria of Compulsive Gambling Addiction; AND
- (B) meets the definition of Deaf/Hearing Impaired.

Note: Gambling requirements:

The South Oaks Gambling Screen (SOGS) is a screening instrument to assess the need for gambling treatment. Consumers completing the SOGS are to be given two scores for each question; a lifetime score and a score for the past twelve months. Consumers scoring more than a five for the past year on the scored questions may preliminarily be considered pathological gamblers. Consumers scoring three or more for the past year on the scored questions may preliminarily be considered problem gamblers.

Following completion of the SOGS, consumers are to be assessed for the DSM-IV criteria for gambling. Consumers must meet five of the ten criteria for the past year to be a pathological gambler, and must meet three or more criteria for the past year to be considered a problem gambler.

Please be aware that reporting a <u>SOGS score of 2 or less is not acceptable</u> and the consumer shall not be assigned under the GAM and DGM agreement types in CSDS.

STATE OPERATED FACILITY (SOF)

DEFINITION

- (A) Consumer is <u>pre-approved</u> by the Division of Mental Health and Addiction as eligible as an SOF consumer—
 - (i) Consumer has been in a State Operated Facility for a specified time, AND
 - (ii) Consumer has been placed in the community by the Provider.

SPECIAL (SPL)

DEFINITION

(A) Consumer has been identified and <u>pre-approved</u> by the Division of Mental Health and Addiction as requiring specialized services because of an exigent situation and the concurrent opportunity to demonstrate special models of service delivery.

ASSERTIVE COMMUNITY TREATMENT (ACT)

DEFINITION

- (A) Meets the definition of Seriously Mentally III Adult; AND
- (B) Meets agency specific criteria which have been approved by DMHA. Examples of appropriate criteria are:
 - Discharged patients from long-term hospitalizations.
 - Consumers who have accumulated a high number of hospitalizations or have accumulated a large number of days hospitalized in the prior two years.
 - Consumers who have repeated criminal justice/legal system involvement despite mental health intervention.
 - Consumers who have difficult-to-treat substance abuse disorder of greater than 6 months duration.
 - Consumers who are homeless or are unstably housed.
 - Consumers who are functioning poorly and do not attend office-based mental health programs on a consistent basis.

AND

(C) The consumer receives services through a DMHA certified Assertive Community Treatment Team.

DEFINITIONS

Arranged Alphabetically

Adjusted Family Income:

Is reported in dollars up to six (6) numbers. The field should express the family unit income as an annualized value. This value is reported AFTER mental health and addiction treatment costs, and/or gambling debt have been deducted. This is a required field, and a value must be reported (you may not report an unknown value). If the consumer is an SED, "family" refers to the family of the person responsible for medical bills. If the state or county is responsible for medical bills, report family income as zero (0).

Age:

Alcohol: age at first intoxication Other substances: age at first use '0' indicates newborn with a substance abuse dependency '99' Unknown

Agency Individual Identifier:

Is coded with agency preferred information that identifies records/individuals within the agency for edit and other data management.

Agreement Identification:

Will be coded as follows along with appropriate designation for Tier Rates:

Seriously Mentally III Seriously Emotionally Disturbed	MI1 - 9 SED
Chronically Addicted	SA1
·	CA1-4
Chronically Addicted Woman (with Dependent Children or Pregnant)	SW1
	AW1-4
Co-Occurring Disorder	CM 1 - 4
Deaf (Hard of Hearing) Chronic Addiction / Substance Abuse	DCA
Deaf (Hard of Hearing) Seriously Mentally Ill	DMI
Deaf (Hard of Hearing) Seriously Emotionally Disturbed	DED
Deaf (Hard of Hearing) Gambling	DGM
Compulsive Gambling Addiction	GAM
Methadone Only	SMO
State Operated Facility	SOF
Special Services	SPL
Assertive Community Treatment	ACT

American Indian or Alaskan Native:

American Indian (other than Alaska Native): Origins in any of the original people of North America and South America (including Central America) and who maintain cultural identification through tribal affiliation or community recognition. Alaskan Native (Aleut, Eskimo): Origins in any of the original people of Alaska.

- 1 Yes
- 2 No

Asian:

A person having origins in any of the original peoples of the Far East, Southeast Asia, or the Indian subcontinent including, for example, Cambodia, China, India, Japan, Korea, Malaysia, Pakistan, the Philippine Islands, Thailand and Vietnam.

- 1 Yes
- 2 No

Assertive Community Treatment: (Code ACT):

See page 19.

Assertive Community Treatment (ACT): Is the individual being served by an ACT Team*?

- 1 Yes
- 2 No

Assessment Date:

Date of assessment data reported on the current Registration/Demographic/Outcome record. For fiscal year 2008 only, Assessments using the HAPI-A that are completed in April, May, or June 2007 and reported on the initial fiscal year 2008 Registration/Demographic/Outcome record, will use the date of the actual HAPI-A results.

Black/African American: Origins in any of the black racial groups of Africa.

- 1 Yes
- 2 No

Chronically Addicted (Code: SA or CA):

See page 16.

Clinician Level

This data element identifies the educational level of the individual providing the service described. In those cases where more than one individual provides the service, this element should describe the most senior of the providers. In the case of residential or inpatient services, where the service is provided by a team that changes over time, and may include no face to face contact, the code for "facility" should be used. There will be many cases where the clinician can be coded to more than one category. Use the smallest number. Example: a Psychiatrist (code 01) who is also a Certified Addiction Counselor (code 16) should be coded as a Psychiatrist (code 01).

- 01 Psychiatrist, Board Eligible or Certified
- 04 Other MD or DO
- 07 PhD Psychologist, HSSP or Non-HSSP
- 10 PhD or Masters in Social Work, Nursing, Counseling, Marriage and Family Therapy, Psychology, LCSW, LMHC or LMFT
- 13 Other Masters or Other PhD
- 16 Certified Addiction Counselor
- 19 RN'S
- 22 Bachelors
- 25 Less than Bachelors
- 28 Facility (Residential Care) Staff

^{*}In order for the agency to select "Yes" in this field, the agency shall have an ACT contract or have achieved ACT certification or provisional certification with DMHA.

Co-dependent/Collateral:

- Consumer is a Co-dependent/Collateral and meets the following criteria:
 - a. Is seeking services because of problems arising from a relationship with a substance user.
 - b. Has been formally admitted for service to a treatment unit.
 - c. Has own consumer record or a record within a primary consumer record.
- 2 Consumer is a primary consumer and should have a 'Substance' listed.

Compulsive Gambling Addiction (Code: GAM):

See page 18.

Co-Occurring Disorder (Coded: CM):

See page 17.

County of Residence:

Is coded using the two-digit code and must be coded 01 through 92 for approval. (Refer to page 34 for County two-digit code listing.)

Criminal Activity:

In the past 30 days, how many times was the individual arrested?

Express as a number (example, "1" indicates the individual was arrested one time in the last 30 days).

Date of Birth:

Enter consumer's date of birth (YYYYMMDD).

Deaf or Hard of Hearing:

Code as:

- 1 Yes
- 2 No
- 9 Unknown

"<u>Deaf</u>": Generally describes individual(s) with a profound or significant hearing loss. Mode of communication is generally dependent upon time of hearing loss:

Perlingual - prior to the acquisition of language;

Postlingual - after language acquisition has already begun.

American Sign Language (ASL) is the most common mode of communication, but some individuals prefer to use hearing aids, speech reading and assistive technology to communicate.

"Hard of Hearing": Describes individual(s) with a mild to profound hearing loss. Some speech sounds can be understood with or without a hearing aid. Most individuals who are hard of hearing use an oral mode of communication. Some use sign language but the majority is committed to using their residual hearing, hearing aids, speech reading and assistive technology to aid communication. The language and identity of these individuals vary depending upon their background and exposure.

Deaf (Hard of Hearing) (Codes DCA; DMI; DED; DGM):

See page 18-19

Detailed-Not in Labor Force:

RESPOND TO THIS QUESTION ONLY IF "EMPLOYMENT" IS CODED #4.

This field gives more detailed information about consumers who are coded as "Not in the Labor Force." If the consumers respond to the "Employment" field with "Not in Labor Force," then "Detailed Not in Labor Force," must be completed.

- 01 Homemaker
- 02 Student
- 03 Retired
- 04 Disabled
- 05 Inmate of institution (prison or institution that keeps a person, otherwise able, from entering the labor force)
- 06 Other
- 96 Not Applicable
- 97 Unknown
- 98 Not Collected
- 99 Invalid

NOTE: CSDS will not store values in the Detailed Not In Labor Force field unless Employment is coded "4" Not in Labor Force.

Diagnosis:

Is reported according to DSM-IV. Coding is up to six characters including decimal or "V" followed by characters.

Example: '392.00', '392.0', or '392'.

<u>Primary</u> diagnosis should be the diagnosis which corresponds to the AGREEMENT IDENTIFICATION (field #12) except for GAMBLING where the diagnosis may appear as SECONDARY.

<u>Secondary</u> diagnosis must be used if the individual is enrolled under the agreement type of Co-Occurring Disorders (CM). Secondary diagnosis can be used for Gambling.

Diagnosis code represents the diagnosis associated with the service that is being performed. Please do not use identical DSM codes for the primary and secondary diagnosis.

See Page 39 for CSDS/HAP acceptable codes for primary diagnoses.

Disability:

Is designed to report only a disability in addition to the disabilities that are directly responsible for the current treatment. The condition of the consumer regarding mental illness and/or substance abuse is reported in greater detail through other fields.

1 None known 2 Blind 3 MR/DD 4 Deaf

5 Mute 6 Non-ambulatory

7 Other Physical/Medical 8 Neurological Impairment

9 Illiterate 10 Other

Education:

0	Not attended school	01-11	Last grade completed
12	High School Graduate	13-15	1 to 3 Years of college
16	College graduate	17	Master's Degree
18	Doctorate Degree	21	Trade or Business School

16 Doctorate Degree 21 Trade of Dusiness Sen

22 Associate Degree 99 Unknown

Employment:

For Chronically Addicted/Substance Abuse Consumers Only:

In the past 30 days, what was the individual's primary employment situation?

For All Other Consumers:

At the date of the initial assessment, reassessment, or discharge, what is the individual's employment status?

- 1 Full-time: working 35 or more hours per week.
- 2 Part-time: working 20 or fewer hours per week.
- 3 Unemployed: looking for work during the last 30 days or laid off from a job. *
- 4 Not In Labor Force: not looking for work during the last 30 days or a homemaker, student, disabled, retired or in an institution.
- 5 Less than full-time: working 21 to 34 hours per week.
- 9 Unknown

*Note: If the consumer's "Employment" is reported as "4" – "Not in Labor Force," the "Detailed Not in Labor Force" field MUST BE COMPLETED. Definition and values are found on page 22.

Encounter Begin Date:

Beginning date of the encounter. This date represents the date when specific services were actually supplied, dispensed, or rendered to the patient.

Encounter services may be reported prior to the date of registration or date of assessment.

Encounter End Date:

Ending date of the encounter. This date represents the date when specific services were completed.

Encounter Units:

List the appropriate units the consumer received for the appropriate service. Encounter Units will vary according to the service and are specified by the specific procedure code (HCPCS or CPT).

Do not use fractional units when reporting. Fractional units will not be stored in CSDS. Example: Consumer received 10 minutes of Case Management (T1016). One unit of T1016 equals 15 minutes. Round minutes up from 10 to 15 minutes which would equal 1 unit of service.

Encounter Value:

An encounter value is the dollar value, or standard charge, for each service rendered to the consumer. The encounter value is determined by the provider, but it must be based on service units. Generally, the rate used will be the same as the provider's usual and customary charge regardless of the provider's expectations for collection.

The Encounter value is to be reported by the provider as the units of service administered to the consumer multiplied by the respective rate for each service. The result is rounded to the nearest whole dollar.

If you have an encounter value, you must provide the encounter unit(s). Do not use zero.

Ethnicity:

Reported as follows and are selected independent of race:

- 1 Puerto Rican
- 2 Mexican
- 3 Cuban
- 4 Other Hispanic/Latino: Of Central or South America, or any other Spanish culture origin

- (including Spain).
- Not Hispanic/Latino: Use this code if the consumer is not of Hispanic Origin. Generally, if race is Alaskan Native, American Indian, or Asian/Pacific Islander, ethnicity would be considered "Not Hispanic". This is not an absolute definition; the decision is made on any available information at the agency level.
- 6 Latino, Unknown Origin

Family Size:

Is reported as a number of individuals that depend on the "family income" for support. This is a required field, and a value must be reported (you may not report an unknown value). If the consumer is an SED, "family" refers to the family of the person responsible for medical bills. If the state or county is responsible for medical bills, report family size as one (1). (This would be the only time that a minor's family size should be 1.)

Food Stamps Indicator:

Is the consumer receiving food stamps?

- 1 Yes
- 2 No

Frequency - of substance intake:

At registration/initial assessment: In the past 30 days, what was the individuals' frequency of use?

At <u>re-assessment or discharge</u>: In the past 30 days or since admission if it was less then 30 days ago, what was the individuals' frequency of use?

None in past month
 One - three times in past month
 One - two times per week
 Three - six times per week

5 Daily

9 Unknown

8 Not Applicable

Funding Indicator

Is the Provider requesting funding for consumer in <u>AGREEMENT TYPES OF ACT, SOF,</u> <u>GAMBLING, METHADONE, DEAF OR SPECIAL SERVICES</u>? This field can be used either at the time of initial registration or as an update to change a previously unfunded enrollee to funded.

- 1 Enroll this individual and request funds
- 2 Enroll this individual, but funds are not requested

Is the consumer being registered as Serious Mental Illness, Chronically Addicted, Chronically Addicted Woman with Dependent Children or Addicted, Co-Occurring Disorders, or Serious Emotional Disturbance?

- 1 DO NOT USE
- 2 Use this number for all registrations -- not requesting funding

Gender:

Is reported

M = male

F = female

HAPI-A Level of Function:

Level of function score from the Hoosier Assurance Plan Instrument – Adults form.

Hard of Hearing:

See "Deaf".

Health Insurance:

1 Blue Cross/Blue Shield 2 HMO 3 Other Private Insurance

4 Medicaid 5 Medicare 6 Other

8 None 9 Unknown

Home and Community Based Service Waiver ("HCBS Waiver")—Community Alternatives to

Psychiatric Residential Treatment Facilities [PRTF]

This field will only apply to those consumers who are age 21 and under and who are enrolled in Medicaid. A Medicaid number must be provided as well.

Is the individual being served by the Community Alternatives to PRTF demonstration waiver?

1 Yes

2 No

Illness Management and Recovery ("IMR")

Definition: Includes a broad range of health, lifestyle, and self-assessment and treatment behaviors by the individual with mental illness, often with the assistance and support of others, so they are able to take care of themselves, manage symptoms, and learn ways to cope better with their illness. Self management includes Psychoeducation, behavioral tailoring, early warning sign recognition, coping strategies, social skills training, and cognitive behavioral treatment. If an illness self-management program other than the specific IMR model is being provided to a consumer, then indicate that the service is being provided without fidelity to the model.

Illness Management and Recovery ("IMR") Skills services:

- 1 Yes, with fidelity to the model (As defined by the SAMHSA Toolkit Project)
- 2 Yes, without fidelity to the model
- 3 No

Integrated Dual Diagnosis Treatment ("IDDT")

Definition: Integrated Treatment for Co-occurring Disorders - Dual diagnosis treatments combine or integrate mental health and substance abuse interventions at the level of the clinical encounter. Hence, integrated treatment means that the same clinicians or teams of clinicians, working in one setting, provide appropriate mental health and substance abuse interventions in a coordinated fashion. In other words, the caregivers take responsibility for combining the interventions into one coherent package. For the individual with a dual diagnosis, the services appear seamless, with a consistent approach, philosophy, and set of recommendations. The need to negotiate with separate clinical teams, programs, or systems disappears. The goal of dual diagnosis interventions is recovery from two serious illnesses.

Integrated Dual Diagnosis Treatment ("IDDT"):

- 1 Yes, with fidelity to the model (As defined by the SAMHSA Toolkit Project)
- 2 Yes, without fidelity to the model
- 3 No

Legal Basis/Type of Commitment:

RESPOND TO THIS QUESTION ONLY IF "SOURCE OF REFERRAL" IS CODED #7:

1 State/Federal Court 2 Formal Proceedings 3 Probation/Parole 4 Legal, Other

5 Diversion Program 6 Prison 7 DUI 8 Other

9 Unknown

Level of Function:

See page 46.

Living Arrangement:

- 1. Alone or with family, a person is considered homeless if he/she lacks a fixed, regular, and adequate nighttime residence and/or his/her primary nighttime residence is (a) a supervised publicly or privately operated shelter designed to provide temporary living accommodation of 3 or less months, (b) an institution that provides a temporary residence for individuals intended to be institutionalized, or (c) a public or private place not designed for, or ordinarily used as, a regular sleeping accommodation for human beings (e.g., on the street).
- 2 Residential Facility (24 hours a day, 7 days a week; child or adult), that does or does not provide treatment: supervised living, group home, board & care, crisis residential, rehabilitation center, adult or child residential care/treatment facility, halfway house, therapeutic group home, agency-operated residential care facilities, a supervised publicly or privately operated shelter designed to provide living accommodation for more than 3 months.
- 3 Independent Living (child or adult): Living with non-foster family <u>without</u> supportive community service being received in the home setting; living in a house, apartment, trailer, hotel, dorm, barrack, single room occupancy, or in the residence of parents, relatives, legal guardians, or other primary caregivers; no routine or planned supportive community service intervention received in order to maintain independence in the living situation. *
- 4 Living Under Correctional Order or Incarcerated (child or adult): Home detention, detention centers, work release, weekend jail for adults, juvenile home/hall, boys-girls camp/school/ranch, youth authority facility, boot camp, jail, correctional facility, prison
- 5 Supported Living (child or adult): Living with non-foster family and <u>receives</u> supportive community service in the home setting; living in a house, apartment, trailer, hotel, dorm, barrack, single room occupancy, or in the residence of parents, relatives, legal guardians, or other primary caregivers; receives routine or planned supportive community services and/or financial support for their living arrangement. Includes semi-independent living. There is community support services intervention.
- Foster Care (child or adult): Individual resides in a foster home. A foster home is a home licensed by a county or State Department to provide foster care to children, adolescents, and/or adults. This includes therapeutic foster care facilities. Therapeutic foster care is a service that provides treatment for troubled children within private homes of trained families.
- 7 Inpatient (not a state operated facility) hospital or nursing home (child or adult): 24 hour a day, 7 day a week care; skilled nursing/intermediate care facility, nursing home, institutes of mental disease (IMD), inpatient psychiatric hospital, psychiatric health facility, general hospital, private adult or children's psychiatric hospital, Veterans Affairs hospital.
- 8 Inpatient State Operated Hospital/Institution (child or adult): 24 hour a day, 7 day a week care; state operated facility.
- 9 Unknown, Unavailable
- 0 Other

^{*}Supportive community services are individualized services to promote recovery, manage crises, perform activities of daily living and/or manage symptoms, and are not public entitlements. Public entitlements are funding sources that a consumer qualifies for based on income, disability, etc. These include, but are not limited to TANF and food stamps. Consumers can be receiving public entitlements and be considered living independently.

Marital Status:

- 1 Never Married (includes those whose only marriage was annulled).
- 2 Married or living together as married.
- 3 Separated includes those separated legally or otherwise absent from spouse because of marital discord.
- 4 Divorced (includes marriages legally terminated).
- 5 Widowed (not remarried after the death of a spouse).
- 9 Unknown

Medicaid Id:

List consumer's twelve (12) digit Medicaid Identification number.

Medicaid Indicator:

Is consumer enrolled in Medicaid?

- 1 Yes
- 2 No

Methadone Only (Coded: SMO):

See page 18.

Native Hawaiian/Other Pacific Islander: A person having origins in any of the original peoples of Hawaii, Guam, Samoa or other Pacific Islands.

- 1 Yes
- 2 No

Needle Use:

Has ever used a needle to ingest substance?:

- 1 Shared
- 2 Yes
- 3 No
- 9 Unknown

Number of Consumer's Children Receiving Care:

Enter the number of children receiving childcare. Care must include provision or the arrangement for child care while the mother is in treatment; primary pediatric care, including immunization for the children and therapeutic interventions for the children which may address their developmental needs, sexual and physical abuse and neglect.

0 through 7

8 indicates eight or more

Pregnant:

At the beginning of a clinical episode was consumer pregnant?

- 1 Yes
- 2 No

Primary Subcontractor:

Provider/facility/agency code identifying the primary subcontractor performing services for the Provider.

Primary Substance:

List the consumer's first use or main substance preference. In determining primary, secondary and tertiary substance abuse problems, clinical judgment will ultimately determine the degree of impairment that a substance has for an individual consumer. In determining the degree of impairment,

the following considerations should be made: (1) pattern of drug involvement; (2) degree of present or past physical, mental, social dysfunction caused by the substance and (3) degree of present or past physical or psychological dependence on drugs, regardless of the frequency of use of a specific drug."

See Substance Code listing on page 38.

Prior SA Treatment Episodes:

Expressed as a number

0 through 4,

5 indicates 5 or more

9 indicates Unknown

Changes in service for the same episode should not be counted as separate prior episodes.

Procedure Code:

DMHA approved service code. The procedure code represents the service the consumer received. See Attachment A.

Provider Number:

This is the three / four digit code assigned to each Provider by FSSA/DMHA (example: 401, 802, 903, 1002, etc.).

Race: See American Indian/Alaskan Native

Asian

Black/African American

Native Hawaiian/Other Pacific Islander

White

Reason Code:

This code represents the "reason" for which the Registration/Demographic/Outcome record is being updated.

Outcome Measures MUST BE reported for each reason code <u>except</u> for Reason Code "4" Discharge, "5" Prison, "6" Deceased or "9" Status Change.

For the values of, Discharge, Prison, Deceased, and Outcome Measures the LOF's should be submitted as zeros. NO range edits will be performed on a re-assessment whose reason code is mentioned above.

Outcome Measures include updated information on Living Arrangement, Employment, Substance Usage data (primary, secondary and tertiary substances, route of ingestion, frequency of use/intake, and age at first use/intoxication), Roles, ACT, SOC, HCBS Waiver, Criminal Activity, Supported Employment, Integrated Dual Diagnosis Treatment, Illness Management and Recovery, Supported Housing, and Detailed-Not in Labor Force (if applicable).

 $0 \qquad \text{Registration-Use this code as the reason for submitting the initial Registration/Demographic/Outcome} \\$

record at the beginning of each episode of care.

A Registration/Demographic/Outcome record is required for each consumer served in fiscal year 2008. If a consumer has been discharged using reason code of 3, 4, 5, or 6 and the consumer re-enters service, a Registration/Demographic/Outcome record is to be completed and Reason Code will be 0 (reactivates the record in CSDS.)

1 180 Days Reassessment: It has been 180 days since the previous assessment.

The provider has recently interviewed the consumer (in person or via telephone) to collect and report to CSDS current outcome measures.

Report any other new information

If consumer is under age 18, report updated CANS information to the Indiana Behavioral Health Assessment System (IBHAS).

Agency Re-assessment: The re-assessment is being performed by the Provider and is in accordance with the agency's normal operating procedures.

The provider has recently interviewed the consumer (in person or via telephone) to collect and report to CSDS current outcome measures.

Report any other new information.

If consumer is under age 18, report updated CANS information to the Indiana Behavioral Health Assessment System (IBHAS).

Mutual Discharge: The Re-assessment is being performed due to a mutual discharge. Current treatment is completed.

Report Outcome Measures

Report any other new information

If consumer is under age 18, report updated CANS information.

Discharge: Termination initiated by the enrollee, enrollee has decided against receiving services, and/or enrollee left against professional advice. Enrollee is not available for reassessments.

Report Outcome Measures if information is available in the clinical record **If consumer is under age 18, report updated CANS information.**

5 Prison: The enrollee is currently with the Department of Corrections or the Federal Prison System.

Report Outcome Measures if information is available in the clinical record

6 Deceased: The enrollee has died and cannot be re-assessed.

Report Outcome Measures if information is available in the clinical record

7 Special DMHA Request

Report Outcome Measures
Reporting of HAPI A LOF scores are **optional**

- 8 Deleted for fiscal year 2008
- 9 Status Change: It is prior to 180 days since last assessment and one or more fields in the Registration/Demographic/Outcome Record needs to be updated.

 Report any changes

Registration

Registration is the process of creating a data set within CSDS for a specific consumer. Beginning in SFY 2008, each person receiving services through the Managed Care Providers will be registered into the CSDS system and will be considered an active consumer while receiving services or an inactive consumer if discharged by each provider of services. Once registered in CSDS, the record will be active or inactive and may be reactivated at any time by any provider.

Revenue 3rd Party Other:

Represents the revenue (or payment) received from third party such as the enrollees health insurance.

Revenue Posting Date:

This is the date the Provider desires this revenue to show as being posted. This requirement was included since revenue (credits and debits) are traced by the quarter it was received. This date is when the revenue is posted into the Provider's account.

Revenue Sources:

Represents the various revenue sources for the enrollee. This value can be negative. Round to the nearest whole dollar. Do not use decimals.

Medicaid (MRO) Medicaid, Other

Medicare

Non-DMHA Federal: Non-DMHA Title XX, Food Stamps

Non-DMHA State County/Local

Other: United Way, Cash donations, Fee collection

Roles:

This is a required field for all consumers age 17 and under.

Complete for children and youth (birth to 17) The Restrictiveness of Living Environmental Scale, ROLES (Hawkins, Almeida, Fabry, & Reitz, 1992) measures the restrictiveness of living of children's living situations. Restrictiveness is measured on a scale from 1 (least restrictive) to 16 (most restrictive). Level of restrictiveness is determined by the degree to which individuals are free in the physical facility (use of locks, privacy of bathing), the degree to which rules and requirements infringe on freedom, and voluntariness with which children and youth enter or leave the setting (Cross & McDonald, 1995). ROLES adapted to add "homeless" and "state hospital".

- 1 **Homeless**: No place to stay; staying anywhere available from night to night
- 2 **Independent**: Living independently alone or with friend/partner with minimal supervision
- 3 **Biological Family**: Living with biological caregiver(s)—mother, father, parents
- 4 **School Dormitory:** living out of the home in boarding school arrangement (without a treatment component)
- Relative's home/adoptive home/ home of a friend: Living in home of and under care of relative, adoptive parents, or with unrelated family friend with responsible adult in household.
- 6 **Supervised Independent Living:** Living in supervised community living arrangement without added support or in-house treatment component (i.e., with recruited mentor, professional housemate, or other "paid roommate")
- 7 **Foster Care**: Living in standard foster care arrangement without added support or in-house treatment component
- 8 **Therapeutic Foster Care**: Foster care arrangement in which providers are trained to care for children with intense special needs and has an identifiable treatment or support component
- 9 **Individual home/group Emergency Shelter**: Temporary apartment, specialized foster home or group living arrangement used to provide extensive support and supervision with focus on children with special needs
- 10 **Group Home:** Alternative living arrangement in which child lives with a small number of other children (e.g., 3 to 9) with special needs. 24-hour supervision is provided along with long-term treatment and supports.
- 11 **Residential Treatment Center:** Alternative group living arrangement for children with intensive mental health /substance abuse treatment needs with 10 or more children. Provides 24-hour staff supervision. Lengths of stay are generally longer than in hospitals.

- 12 **Medical Hospital (non-psychiatric)**: Living in inpatient unit of medical hospital for treatment of non-mental health-related problems
- 13 **Psychiatric Hospital**: Acute inpatient unit of a community psychiatric hospital with 24-hour supervision. Intensive mental health treatment component
- 14 **State Hospital**: Inpatient unit of state psychiatric hospital
- Juvenile Detention Center/Youth Correctional Center: Incarceration of youth in "youth-only" locked facility. May or may not have treatment component
- 16 Jail/prison: Incarceration of youth in locked adult correctional facility with high structure and high supervision

Route - of Substance Ingestion:

1 Oral 2 Smoked

3 Inhaled 4 Injection 8 Other 9 Unknown

Secondary Substance:

List the consumer's second use or secondary drug preference. In determining primary, secondary and tertiary substance abuse problems, clinical judgment will ultimately determine the degree of impairment that a substance has for an individual consumer. In determining the degree of impairment, the following considerations should be made: (1) pattern of drug involvement; (2) degree of present or past physical, mental, social dysfunction caused by the substance and (3) degree of present or past physical or psychological dependence on drugs, regardless of the frequency of use of a specific drug."

See Substance Code listing on page 38.

Seriously Emotionally Disturbed (Coded SED):

See page 17.

Seriously Mentally Ill (Coded: MI):

See page 16

SOGS Level of function:

Level of function score from the South Oaks Gambling Screen form. The score reported is to be based on the past twelve (12) months, not the lifetime score.

Source of Referral:

- 1 <u>Individual/Self</u>: Consumers referred by an individual, including self, family member, friend, or any other individual.
- 2 <u>Alcohol/Drug Care Provider</u>: Any program, clinic, or any other health care provider whose principal objective is treating consumers with substance, or a program whose activities are related to alcohol or drug abuse prevention, education, or treatment.
- 3 <u>Health Care, Other</u>: A physician, psychiatrist, or other licensed health care professional; or general hospitals, psychiatric hospitals, mental health programs, or nursing homes.
- 4 <u>School (Educational)</u>: A school principal, counselor, or teacher; or a student assistance program (SAP), the school system, or an educational agency.
- 5 Employer/Employee Assistance Program: A supervisor or an employee counselor.
- Other Community Referral: Community and religious organizations or any Federal, State, or local agency that provides aid in the areas of poverty relief, unemployment, shelter or social welfare. Self help groups such as Alcoholics Anonymous (AA), Al-Anon, Narcotics Anonymous (NA), are also included in this category, as well as defense attorneys.
- 7 <u>Court/Criminal Justice/Driving Under the Influence/Driving While Intoxicated</u>: Any police official, judge, prosecutor, probation officer, or other person affiliated with a Federal, State, or county judicial system and includes:

- a. Referrals for DWI/DUI except individual referrals.
- b. Referrals in lieu of or for deferred prosecution; or during pretrial release; or before or after adjudication.
- c. Pre-parole, pre-release, work or home furlough, or TASC (diversionary programs). Consumer need not be officially designated as 'on parole'.
- d. Civil commitment. This category must be further defined in 'Legal Basis/Type of Commitment'.

NOTE: IF SOURCE OF REFERRAL EQUALS ITEM #7, YOU MUST ALSO RESPOND TO "LEGAL BASIS/TYPE OF COMMITMENT".

- 8 Referral from Child Welfare/Department of Child Services (DCS).
- 9 Unknown

Sub Provider Code:

This is a three-or-four-digit code for each sub-provider. The code is designated within the agency and is not assigned by DMHA.

Substance Abuse (Coded SA or CA):

See page 16 for Chronically Addicted.

Supported Employment

Definition: Mental Health Supported Employment (SE) is an evidence-based service to promote rehabilitation and return to productive employment for persons with serious mental illness. SE programs use a team approach for treatment, with employment specialists responsible for carrying out all vocational services from intake through follow-along. Job placements are: community-based (i.e., not sheltered workshops, not onsite at SE or other treatment agency offices), competitive (i.e., jobs are not exclusively reserved for SE consumers, but open to public), in normalized settings, and utilize multiple employers. The SE team has a small consumer to staff ratio. SE contacts occur in the home, at the job site, or in the community. The SE team is assertive in engaging and retaining consumers in treatment, especially utilizing face-to-face community visits, rather than phone or mail contacts. The SE team consults/works with family and significant others when appropriate. SE services are frequently coordinated with Vocational Rehabilitation benefits.

Consumer is Receiving Supported Employment ("SE") services (pick one):

- Supported employment for paid, full-time work (35 hours per week or more with continuing support)
- 2 Supported employment for paid, less than full-time work (21 to 34 hours per week with continuing support)
- 3 Supported employment for paid, part-time work (up to 20 hours per week with continuing support)
- 4 Enrolled in supported employment and not yet employed
- 5 Not enrolled in or not receiving supported employment services

Supported Housing Services

Definition: Supported Housing consists of services to assist individuals in finding and maintaining appropriate housing arrangements. This activity is premised upon the idea that certain consumers are able to live independently in the community only if they have support from staff for monitoring and/or assisting with daily living responsibilities. The staff assists consumers to select, obtain, and maintain safe, decent, affordable housing and maintain a link to other essential services provided within the community. The objective of supported housing is to help obtain and maintain an independent living situation.

The minimum requirements for reporting supported housing include:

• Staff assigned: Specific staff are assigned to provide supported housing services.

- Housing is integrated: That is, supported housing provides for living situations in settings that are also available to persons who do not have mental illnesses.
- Consumer has the right to tenure: The ownership or lease documents are in the name of the consumer.
- Supported housing is targeted to persons who would not have a viable housing arrangement without this service.
- Affordability: Supported housing assures that housing is affordable (consumers pay no more than 40% of their monthly income on rent and utilities) through adequate rent subsidies, etc.

Supported housing is not reported if the individual lives in a residential treatment program or is being served by the ACT team.

There are currently no fidelity measures for Supported Housing.

Supported Housing Services ("SH"):

- 1 Yes
- 2 No

Systems of Care - "SOC"

A System of Care (SOC) is a wide array of mental health and related services and supports organized to work together to provide care. In a SOC, wraparound services are provided through a child and family team.

This field is critical and may be updated throughout the year. This field only applies to those consumers who are children (age 17 and under).

Is the individual being served by a System of Care wrap-around services?

- 1 Yes
- 2 No

TANF code:

Is consumer enrolled in the TANF welfare program?

- 1 Enrolled: The consumer is enrolled in the TANF program.
- 2 Eligible: The consumer has an adjusted family income of under 250% of the poverty level, and has dependent children living at home, but is not enrolled in the TANF program.
- Not Eligible: The consumer has an adjusted family income of over 250% of the poverty level or has no dependent children living at home.

Tertiary Substance:

List the consumer's third use or third drug preference. In determining primary, secondary and tertiary substance abuse problems, clinical judgment will ultimately determine the degree of impairment that a substance has for an individual consumer. In determining the degree of impairment, the following considerations should be made: (1) pattern of drug involvement; (2) degree of present or past physical, mental, social dysfunction caused by the substance and (3) degree of present or past physical or psychological dependence on drugs, regardless of the frequency of use of a specific drug."

See Substance Code listing on page 38.

Third (3rd) Party Billing Indicator

Has or will a 3rd Party be billed?

- 1 Yes
- 2 No

Transaction:

- 1 Create record This code is used for most submissions to provide **new or updated data**.
- 2 Update existing record This code is only used **to correct data** that was previously submitted. For example,

if a previous submission gave an incorrect race code and the record should be changed, use code 2.

Unique Identifier:

 $A\ constructed\ field\ that\ will\ be\ used\ to\ track\ consumers\ across\ the\ data\ system\ (fffyyyymmddgssss).$

roud alaah)

First three letters of the first name. If less than three letters, fill with '/'

(forward slash).

yyyymmdd Birth Date (yyyy=year; mm=month; dd=day)

g Gender

ssss "Last Four Digits of Consumer's SSN (Social Security Number)":

In the example SSN '123-45-6789' this field would be completed with "6789", this will help further identify consumers.

The agency must provide the last four-digits of the consumer's Social Security Number. If the consumer does not have a social security number, please contact Paula Barrickman at Paula.Barrickman@fssa.in.gov. Do not use fictitious numbers.

Veteran:

Is consumer a veteran? This includes any person who has served on "active" duty in the armed forces of the United States, including the Coast Guard. Not counted as veterans are those whose only service was in the Reserves, National Guard or Merchant Marines.

- 1 Yes
- 2 No
- 9 Unknown

<u>White:</u> Caucasian with origins in any of the people of Europe (including Portugal), North Africa, or the Middle East.

- 1 Yes
- 2 No

SUBSTANCE USE/ABUSE CODES

CODE	SUBSTANCE
1	None
2	Alcohol
3	Cocaine/Crack: AKA; crack, coke, blow, toot, sow, lady and girl
4	Marijuana/Hashish: AKA; Hashish, hash oil, bang, kif, ganja, dope, grass, pot, smoke, hemp, joint, weed, bonde, maryjane, herb, and tea. Includes THC and any other cannabis sativa preparations.
5	Heroin: AKA; H, hombre, junk, smack, dope, horse, crap, hand and boy.
6	Non-Prescription Methadone: AKA; meth.
7	Other Opiates & Synthetics: AKA; drugstore dope, cube, first line, mud, and perks. Includes codeine, Dilaudid, morphine, Demeral, opium and any other drug with morphine-like effects.
8	PCP: AKA; angel dust, hog, peace pill, elephant, tranquilizer and dust.
9	Other Hallucinogens, Ketamine, or GHB/GBL(gamma-hydroxybutyrate, gamma-butyrolactone): AKA; Special K, electricity, acid, quasey, blotter acid, microdot, white lightning, purple barrels, peyole buttons, mushrooms, shrooms, rooms, rocket fuel, superweed and bad pizza. Includes D, DMT, STP, mescaline and peyote.
10	Methamphetamine or Methylenedioxymethamphetamine: AKA; crystal, ice, crank, methedrine, MDMA, Ecstasy.
11	Other Amphetamines: Include Benzedrine, Dexedrine, Preludin and Ritalin.
12	Other Stimulants: AKA; speed and black beauties.
13	Benzodiazepine or Flunitrazepam: Includes Diazepam, Flurazepam, Chlordiazeposice, Clorazepate, Lorazepam, Alprazolam, Oxazepam, Temazepam, Prazepam, Riazolam, Clonazepam, Halazepam, Rivotril, Klonopin, and Rohypnol.
14	Other Tranquilizers
15	Barbiturates: AKA; Reds and tueys. Includes Phenobarbital, Seconal and Nembutal, etc.
16	Other Sedatives or Hypnotics: AKA; yellow jackets, yellows, ludes, 714's and V's. Includes chloral hydrate, Placidyl and Doriden, etc.
17	Inhalants: Includes ether, glue, chloroform, nitrous oxide, gasoline, paint thinner, etc.
18	Over-The-Counter: Includes aspirin, cough syrup, Sominex, and any other legally obtained, non-prescription medication.
19	Tobacco and Other Tobacco Products: snuff, pipes, cigars, cigarettes, chew, smokeless tobacco.
20	Other
99	Unknown (not allowed for Primary Substance, allowed for Secondary and Tertiary Substances).

ACCEPTABLE PRIMARY DSM-IV CATEGORIES FOR CSDS

The following codes are acceptable as <u>a primary diagnosis</u> code for consumers enrolled in the Hoosier Assurance Plan Community Services Data System.

First Three Digits Of DSM-IV Code	Category	Notes
290	Mental Illness	Not acceptable for HAP enrollments: 290.12, 290.13, 290.20, 290.21, 290.42, or 290.43
291	Substance Abuse	
292	Substance Abuse	Not acceptable for HAP enrollments: 292.0, 292.9
293	Mental Illness	
294	Mental Illness	
295	Mental Illness	
296	Mental Illness	
297	Mental Illness	
298	Mental Illness	
300	Mental Illness	
301	Mental Illness	
302	Mental Illness	Not acceptable for HAP enrollments: 302.7X
303	Substance Abuse	
304	Substance Abuse	
305	Substance Abuse	Not acceptable for HAP enrollments: 305.1, 305.10
306	Mental Illness	
307	Mental Illness	Not acceptable for HAP enrollments: 307.0X, 307.9
308	Mental Illness	
309	Mental Illness	
310	Mental Illness	
311	Mental Illness	
312	Mental Illness	312.31 Is used under the GAM agreement type
313	Mental Illness	
314	Mental Illness	
316	Mental Illness	
332	Mental Illness	
333	Mental Illness	
347	Mental Illness	
607	Mental Illness	
608	Mental Illness	
625	Mental Illness	
780	Mental Illness	
787	Mental Illness	

RISK LEVEL FLOW CHARTS

- Mental Illness
- Chronically Addicted
- Co-Occurring Disorders

NOTE: IN ORDER TO AVOID INADVERTENT DIFFERENCES IN THE DETERMINATION OF RISK VALUES, ALL FACTOR SCORES SHOULD BE CALCULATED WITHOUT ROUNDING.

Risk Level Flow Chart

Mental Illness (MI or CM)

Risk Level Flow Chart

Co-Occurring Disorders (CM)

¹ Individuals must satisfy the following criteria to be considered as having a co-occurring disorder.

^{*} Yes = Living at Home = Living Arrangement 3

COMMUNITY SERVICES DATA SYSTEM SERVICE CODING

This portion of the CSDS instruction manual is considered as a "work in progress" and will be updated throughout the year as the Division continues to move toward HIPAA compliance and standardized reporting. If a code is not listed, the Provider should not report that code until DMHA has approved the code for CSDS. The Provider is to make a written request to DMHA to have the new service code added. The request should include the code to be used along with a definition and justification for adding the code. The request should be sent to Paula Barrickman at FSSA / Division of Mental Health and Addiction, W353, 402 West Washington Street, Indianapolis, IN 46204. You may also e-mail the request to paula.barrickman@fssa.in.gov.

Please note the "1 UNIT =" column, the word "session" is used as a "generic term". The word "activity", "event", "interview", "procedure" etc. can be replaced or interchangeable with the word "session".

Reminder: Do not use fractional units when reporting. Fractional units will not be stored in CSDS. Example: Consumer received 10 minutes of Case Management (T1016). One unit of T1016 equals 15 minutes. Round minutes up from 10 to 15 minutes which would equal 1 unit of service.

CODE	SHORT DESCRIPTION	1 UNIT =	DEFINITION
PSYCHIATRY			
90801	Psychiatric Interview	Session	Psychiatric diagnostic interview examination
90802	Interactive psychiatric interview	Session	Interactive psychiatric diagnostic interview examination using play equipment, physical devices, language interpreter, or other mechanisms of communication
NEUROLOGY A	ND NEUROMUSCULAR		
95970	Subsequent electronic analysis of previously-implanted simple or complex brain, spinal cord, or peripheral neurostimulator pulse generator system without reprogramming.	Session	Electronic analysis of implanted neurostimulator pulse generator system (eg, rate, pulse amplitude and duration, configuration of wave form, battery status, electrode selectability, output modulation, cycling, impedance and patient compliance measurements); simple or complex brain, spinal cord, or peripheral (ie, cranial nerve, peripheral nerve, autonomic nerve, neuromuscular) neurostimulator pulse generator/transmitter, without reprogramming.
95974	Intraoperative (at initial insertion/revision) or subsequent electronic analysis of an implanted complex cranial nerve programming.	60 minutes	Complex cranial nerve neurostimulator pulse generator/transmitter, with intraoperative or subsequent programming, with or without nerve interface testing, first hour
95975	Intraoperative (at initial insertion/revision) or subsequent electronic analysis of an implanted complex cranial nerve programming.	30 minutes	Complex cranial nerve neurostimulator pulse generator/transmitter, with intraoperative or subsequent programming, each additional 30 minutes after first hour (List separately in addition to code for primary procedure)

EVALUATION 8	MANAGEMENT - OFFICE OR OTHER OUTP	ATIENT SERVICES – S	ERVICES PROVIDED BY A PHYSICIAN	
NEW PATIENT				
99201	Level 1	Per Visit	Office or other outpatient visit for the evaluation and management of a new patient which requires these three key components: A problem focused history; A problem focused examination; Straightforward medical decision-making. Usually the presenting problems are self limited or minor. Physicians typically spend 10 minutes face-to-face with the patient or family	

99202	Level 2	Per Visit	Office or other outpatient visit for the evaluation and management of a new patient which requires these three key components: An expanded problem focused history; An expanded problem focused examination; Straightforward medical decision-making. Usually the presenting problems are of low to moderate severity. Physicians typically spend 20 minutes face-to-face with the patient or family
99203	Level 3	Per Visit	Office or other outpatient visit for the evaluation and management of a new patient which requires these three key components: A detailed history; A detailed examination and Medical decision making of low complexity. Usually the presenting problems are of moderate severity. Physicians typically spend 30 minutes face-to-face with the patient or family.
99204	Level 4	Per Visit	Office or other outpatient visit for the evaluation and management of a new patient which requires these three key components: A comprehensive history; A comprehensive examination and Medical decision making of moderate complexity. Usually the presenting problems are of moderate to high severity. Physicians typically spend 45 minutes face-to-face with the patient or family.
99205	Level 5 MANAGEMENT – OFFICE OR OTHER OUTF	Per Visit Partient Services – Sei	Office or other outpatient visit for the evaluation and management of a new patient which requires these three key components: A comprehensive history; A comprehensive examination and Medical decision making of high complexity. Usually the presenting problems are of moderate to high severity. Physicians typically spend 60 minutes face-to-face with the patient or family.
ESTABLISHED F			
99211	Level 1	Per Visit	Office or other outpatient visit for the evaluation and management of an established patient, that may not require the presence of a physician. Usually, the presenting problem(s) are minimal. Typically 5 minutes are spent performing or supervising these services.
99212	Level 2	Per Visit	Office or other outpatient visit for the evaluation and management of an established patient, which requires at least two of these three key components: A problem focused history; A problem focused examination; Straightforward medical decision-making. Usually the presenting problems are self limited or minor. Physicians typically spend 10 minutes face-to-face with the patient and/or family
99213	Level 3	Per Visit	Office or other outpatient visit for the evaluation and management of an established patient, which requires at least two of these three key components: An expanded problem focused history; An expanded problem focused examination; Medical decision making of low complexity Usually the presenting problems are of low to moderate severity. Physicians typically spend 15 minutes face-to-face with the patient and/or family.
99214	Level 4	Per Visit	Office or other outpatient visit for the evaluation and management of an established patient, which requires at least two of these three key components: An detailed history; An detailed examination; Medical decision making of moderate complexity Usually the problems are of moderate to high severity. Physicians typically spend 25 minutes face-to-face with the patient and/or family.
99215	Level 5	Per Visit	Office or other outpatient visit for the evaluation and management of an established patient, which requires at least two of these three key components: An comprehensive history; An comprehensive examination; Medical decision making of high complexity Usually, the presenting problems are of moderate to high severity. Physicians typically spend 40 minutes face-to-face with the patient and/or family.
JUSTICALION (Observation care discharge day management including Admission and
99217	Observation Care Discharge	Per Visit	Discharge Services, 99234-99236 as appropriate. (This code is to be utilized by the physician to report all services provided to a patient on discharge from "observation status" if the discharge is on other than the initial date of "observation status". To report services to a patient designated as "observation status" or "inpatient status" and discharged on the same date, use the codes for observation or inpatient care services.
99218	Initial Observation Care	Per Visit	Initial observation care, per day, for the evaluation and management of a patient which requires these three key components: a detailed or comprehensive history; a detailed or comprehensive examination and medical decision making that is straightforward or of low complexity. Counseling and/or coordination of care with other providers or agencies are provided consistent with the nature of the problem(s) and the patient's and/or family needs. Usually, the problem(s) requiring admission to "observation status" are of low severity.

99219	Initial Observation Care	Per Visit	Initial observation care, per day, for the evaluation and management of a patient which requires these three key components: a comprehensive history; a comprehensive examination and medical decision making of moderate complexity. Counseling and/or coordination of care with other providers or agencies are provided consistent with the nature of the problem(s) and the patient's and/or family needs. Usually, the problem(s) requiring admission to "observation status" are of moderate severity.	
99220	Initial Observation Care	Per Visit	Initial observation care, per day, for the evaluation and management of a patient which requires these three key components: a comprehensive history; a comprehensive examination and medical decision making of high complexity. Counseling and/or coordination of care with other providers or agencies are provided consistent with the nature of the problem(s) and the patient's and/or family needs. Usually, the problem(s) requiring admission to "observation status" are of high severity.	
PROLONGED PH	YSICIAN SERVICES			
99354	Prolonged Physician Service	60 Minutes	Prolonged physician service in the office or other outpatient setting requiring direct (face-to-face) patient contact beyond the usual service (e.g., prolonged care and treatment of an acute asthmatic patient in an outpatient setting) first hour (List separately in addition to code for office or other outpatient Evaluation and Management Services).	
99355	Prolonged Physician Service	Each Additional 30 Minutes	Prolonged physician service in the office or other outpatient setting requiring direct (face-to-face) patient contact beyond the usual service. Each additional 30 minutes. (List separately in addition to code for prolonged physician service).	
99356	Prolonged Physician Services in an Inpatient setting	60 Minutes	Prolonged physician service in the inpatient setting requiring direct (face-to-face) patient contact beyond the usual service (e.g., maternal fetal monitoring for high risk delivery or other physiological monitoring, prolonged care of an acutely ill inpatient); first hour. (List separately in addition to code for inpatient Evaluation and Management service).	
99357	Prolonged Physician Services in an Inpatient setting	Each Additional 30 Minutes	Prolonged physician service in the inpatient setting requiring direct (face-to-face) patient contact beyond the usual service. Each additional 30 minutes. (List separately in addition to code for prolonged physician service).	
99358	Prolonged Evaluation and Management Service before and/or After Direct (face- to-face) patient care	60 Minutes	Prolonged evaluation and management service before and/or after direct (face-to-face) patient care (e.g., review of extensive records and tests, communication with other professionals and/or the patient /family). First hour. (List separately in addition to code(s) for other physician service(s) and/or inpatient or outpatient Evaluation and Management service).	
99359	Prolonged Evaluation and Management Service before and/or After Direct (face- to-face) patient care	Each Additional 30 Minutes	Prolonged evaluation and management service before and/or after direct (face-to-face) patient care (e.g., review of extensive records and tests, communication with other professionals and/or the patient/family). Each additional 30 minutes. (List separately in addition to code for prolonged physician service).	
WORK RELATED OR MEDICAL DISABILITY EVALUATION SERVICES				
99455	Disability examination	Session	Work Related or medical disability examination by the treating physician that includes: Completion of a medical history commensurate with the patient's condition performance of an examination commensurate with the patient's condition Formulation of a diagnosis, assessment of capabilities and stability, and calculation of impairment Development of future medical treatment plan Completion of necessary documentation/certificates and report.	
99456	Other than treating physician	Session	Work related or medical disability examination by other than the treating physician

96101	Psychological Testing	Per Hour	Psychological testing (includes psycho diagnostic assessment of emotionality, intellectual abilities, personality and psychopathology, eg MMPI, Rorshach, WAIS) per hour of the psychologist's or physician's time, both face-to-face time with patient and time interpreting test results and preparing the report.

-					
96102	Psychological Testing	Per Hour	Psychological testing (includes psycho diagnostic assessment of emotionality, intellectual abilities, personality and psychopathology, eg, MMPI and WAIS) with qualified health care professional interpretation and report, administered by a technician, per hour of technician time, face-to-face.		
96103	Psychological Testing	Per Hour	Psychological testing (includes psycho diagnostic assessment of emotionality, intellectual abilities, personality and psychopathology, eg. MMPI) administered by a computer, with qualified health care professional interpretation and report.		
96105	Boston Diagnostic Aphasia Exam	Per Hour	Assessment of aphasia (includes assessment of expressive and receptive speech and language function, language comprehension, speech production, ability, reading, spelling, writing, e.g., by Boston Diagnostic Aphasia Examination) with interpretation and report, per hour		
96110	Developmental screening Test II, Early Milestone Screen	Session	Developmental testing; limited (e.g., Developmental Screening Test II, Early Language Milestone Screen), with interpretation and report		
96111	Bayley Scales of Infant Development	Per Hour	Developmental testing; extended (e.g., includes assessment of motor, language, social, adaptive and/or cognitive functioning by standardized developmental instruments, e.g., Bayley Scales of Infant Development) with interpretation and report, per hour		
96116	Neurobehavioral status exam	Per Hour	Neurobehavioral status exam (clinical assessment of thinking, reasoning and judgment, eg, acquired knowledge, attention, language, memory, planning and problem solving and visual spatial abilities.) per hour of the psychologist's or physician's time, both face-to-face time with the patient and time interpreting test results and preparing the report.		
96118	Neuropsychological Testing by Psychologist or Physician's	Per Hour	Neuropsychological testing (eg, Halstead-Reitan Neuropsychological Battery, Wechsler Memoriy Scales and Wisconsin Card Sorting Test,) Per hour of the psychologist or physician's time, both face-to-face time with the patient and time interpreting test results and preparing the report.		
96119	Neuropsychological Testing by Technician	Per Hour	Neuropsychological testing (eg, Halstead-Reitan Neuropsychological Battery, Wechsler Memory Scales and Wisconsin Card Sorting Test,) with qualified health care professional interpretation and report, administered by a technician, per hour of technician time, face-to-face.		
96120	Neuropsychological Testing by Computer	Per Visit	Neuropsychological testing (eg, Wisconsin Card Sorting Test), administered by a computer, with qualified health care professional interpretation and report.		
HEALTH AND BL	EHAVIOR ASSESSMENT/INTERVENTION				
96150	Initial Health and Behavior Assessment	15 Minutes	Health and behavior assessment (e.g., health-focused clinical interview, behavioral observations, psychophysiological monitoring, health-oriented questionnaires), each 15 minutes face-to-face with the patient; initial assessment.		
96151	Initial Health and Behavior Re- Assessment	15 Minutes	Health and behavior assessment (e.g., health-focused clinical interview behavioral observations, psychophysiological monitoring, health-oriented questionnaires), each 15 minutes face-to-face with the patient; initial reassessment.		
96152	Health and Behavior Intervention Individual	15 Minutes	Health and behavior intervention, each 15 minutes, face-to-face; individual		
96153	Health and Behavior Intervention Group	15 Minutes	Health and behavior intervention, each 15 minutes, face-to-face; group (2 or more patients).		
96154	Health and Behavior Intervention Family with Patient	15 Minutes	Health and behavior intervention, each 15 minutes, face-to-face; family (with the patient present).		
96155	Health and Behavior Intervention Family without Patient	15 Minutes	Health and behavior intervention, each 15 minutes, face-to-face; family (without the patient present).		
HOSPITAL INPA	TIENT SERVICES				
Codes used to	Codes used to report evaluation and management services provided to hospital inpatients. Hospital inpatient services include those services provided to patients in a "partial hospital" setting. These codes are to be used to report those partial hospitalization services. See also psychiatry notes in the full text of				
INITIAL HOSPITA					
99221	LISHED Level 1	Per Visit	Initial hospital care, per day for the evaluation and management of a patient which requires these three components: A detailed or comprehensive history A detailed or comprehensive examination Medical decision making that is straightforward or of low complexity. Usually the problems requiring admission are of low severity. Physicians typically spend 30 minutes at the bedside and on the patient's hospital floor or unit.		
99222	Level 2	Per Visit	Initial hospital care, per day for the evaluation and management of a patient which requires these three components: A comprehensive history A comprehensive examination Medical decision making of moderate complexity. Usually the problems requiring admission are of moderate severity. Physicians typically spend 50 minutes at the bedside and on the patient's hospital floor or unit.		

99223	Level 3	Per Visit	Initial hospital care, per day for the evaluation and management of a patient which requires these three components: A comprehensive history A comprehensive examination Medical decision making of high complexity. Usually the problems requiring admission are of high severity. Physicians typically spend 70 minutes at the bedside and on the patient's hospital floor or unit.

			ewing the results of diagnostic studies and changes in the patient's status
99231	history, physical condition and response to	Per Visit	Subsequent hospital care, per day, for the evaluation and management of a patient, which requires at least two of these three key components: A problem focused interval history A problem focused examination Medical decision making that is straightforward or of low complexity Usually, the patient is stable, recovering or improving. Physicians typically spend 15 minutes at the bedside and on the patient's hospital floor or unit.
99232	Level 2	Per Visit	Subsequent hospital care, per day, for the evaluation and management of a patient, which requires at least two of these three key components: An expanded problem focused interval history An expanded problem focused examination Medical decision making that is straightforward or of moderate complexity Usually, the patient is responding inadequately to therapy or has developed a minor complication. Physicians typically spend 25 minutes at the bedside and on the patient's hospital floor or unit.
99233	Level 3	Per Visit	Subsequent hospital care, per day, for the evaluation and management of a patient, which requires at least two of these three key components: A detailed interval history A detailed examination Medical decision making of high complexity Usually, the patient is unstable or has developed a significant complication. Physicians typically spend 35 minutes at the bedside and on the patient's hospital floor or unit.

OBSERVATION OR INPATIENT CARE SERVICES (including Admission & Discharge Services)					
Codes are used to report observation or inpatient hospital care services provided to patients admitted and discharged on the same date of service					
99234	Level 1	Session	Observation or inpatient hospital care, for the evaluation and management of a patient including admission and discharge on the same date which requires these three key components: A detailed or comprehensive history A detailed or comprehensive examination Medical decision making that is straightforward or of low complexity Usually the presenting problems requiring admission are of low severity.		
99235	Level 2	Session	Observation or inpatient hospital care, for the evaluation and management of a patient including admission and discharge on the same date which requires these three key components: A comprehensive history A comprehensive examination Medical decision making of moderate complexity Usually the presenting problems requiring admission are of moderate severity.		
99236	Level 3	Session	Observation or inpatient hospital care, for the evaluation and management of a patient including admission and discharge on the same date which requires these three key components: A comprehensive history A comprehensive examination Medical decision making of high complexity Usually the presenting problems requiring admission are of high severity.		
The hospital dis The codes inclu	HOSPITAL DISCHARGE SERVICES The hospital discharge day management codes are to be used to report the total duration of time spent by a physician for final hospital discharge of a patier The codes include, as appropriate, final examination of the patient, discussion of the hospital stay, even of the time spent by the physician on that date is n continuous, instructions for continuing care to all relevant caregivers, and preparation of discharge records, prescriptions and referral forms.				
99238	Discharge Day up to 30 minutes	Up to 30 Minutes	Hospital discharge day management; 30 minutes or less		
99239	Over 30 minutes	More Than 30 Minutes	More than 30 minutes		
NEW OR ESTAB		l inpatients, residents of r	nursing facilities or patients in a partial hospital setting.		
99251	Level 1	20 Minutes	Initial inpatient consultation for a new or established patient, which requires these three components: A problem focused history A problem focused examination Straightforward medical decision making Usually, the presenting problems are self limited or minor. Physicians typically spend 20 minutes at the bedside and on the patient's hospital floor or unit.		

			Initial inpatient consultation for a new or established patient, which requires
99252	Level 2	40 Minutes	these three components: An expanded problem focused history An expanded problem focused examination Straightforward medical decision making Usually, the presenting problems are of low severity. Physicians typically spend 40 minutes at the bedside and on the patient's hospital floor or unit.
99253	Level 3	55 Minutes	Initial inpatient consultation for a new or established patient, which requires these three components: A detailed history A detailed examination Medical decision making of low complexity Usually, the presenting problems are of moderate severity. Physicians typically spend 55 minutes at the bedside and on the patient's hospital floor or unit.
99254	Level 4	80 Minutes	Initial inpatient consultation for a new or established patient, which requires these three components: A comprehensive history A comprehensive examination Medical decision making of moderate complexity Usually, the presenting problems are of moderate to high severity. Physicians typically spend 80 minutes at the bedside and on the patient's hospital floor or unit.
99255	Level 5	110 Minutes	Initial inpatient consultation for a new or established patient, which requires these three components: A comprehensive history A comprehensive examination Medical decision making of high complexity Usually, the presenting problems are of moderate to high severity. Physicians typically spend 110 minutes at the bedside and on the patient's hospital floor or unit.
	ATIENT CONSULTATIONS		
Established Pation 99261	Level 1	10 Minutes	Follow-up inpatient consultation for an established patient, which requires at least two of these three components A problem focused interval history A problem focused examination Medical decision making that is straightforward or of low complexity Usually the patient is stable, recovering or improving. Physicians typically spend 10 minutes at the bedside and on the patient's floor or unit.
99262	Level 2	20 Minutes	Follow-up inpatient consultation for an established patient, which requires at least two of these three components An expanded problem focused interval history An expanded problem focused examination Medical decision making of moderate complexity Usually the patient is responding inadequately to therapy or has developed a minor complication. Physicians typically spend 20 minutes at the bedside and on the patient's floor or unit.
99263	Level 3	30 Minutes	Follow-up inpatient consultation for an established patient, which requires at least two of these three components A detailed interval history A detailed examination Medical decision making of high complexity Usually the patient is unstable or has developed a significant complication or a significant new problem. Physicians typically spend 30 minutes at the bedside and on the patient's floor or unit.

EMERGENCY DE	EPARTMENT SERVICES		
99281	Level 1	Session	Emergency Department visit for the evaluation and management of a patient which requires these three key components: A problem focused history A problem focused examination Straightforward medical decision making Usually the presenting problems are self limited or minor.
99282	Level 2	Session	Emergency Department visit for the evaluation and management of a patient which requires these three key components: An expanded problem focused history An expanded problem focused examination Medical decision making of low complexity Usually the presenting problems are of low to moderate severity
99283	Level 3	Session	Emergency Department visit for the evaluation and management of a patient which requires these three key components: An expanded problem focused history An expanded problem focused examination Medical decision making of moderate complexity Usually the presenting problems are of moderate severity.
99284	Level 4	Session	Emergency Department visit for the evaluation and management of a patient which requires these three key components: A detailed history A detailed examination Medical decision making of moderate complexity Usually the presenting problems are of high severity, and require urgent evaluation by the physician but do not pose an immediate significant threat to life or physiologic function.
99285	Level 5	Session	Emergency Department visit for the evaluation and management of a patient which requires these three key components within the constraints imposed by the urgency of the patient's clinical condition and/or mental status. A comprehensive history A comprehensive examination Medical decision making of high complexity Usually the presenting problems are of high severity, and pose an immediate significant threat to life or physiologic function.
	/E NURSING FACILITY ASSESSMENTS		
New or Establish	ned Patients	1	Initial nursing facility care, per day, for the evaluation and management
99304	Initial Nursing Facility Care –Low Complexity	Per Day	of a patient which requires these three key components: A detailed or comprehensive history; A detailed or comprehensive examination and A medical decision making that is straightforward or of low complexity. Counseling and/or coordination of care with other providers or agencies are provided consistent with the nature of the problem(s) and the patient's and/or family's needs. Usually, the problem(s) requiring admission are of low severity.
99305	Initial Nursing Facility Care –Moderate Complexity	Per Day	Initial nursing facility care, per day, for the evaluation and management of a patient which requires these three key components: A comprehensive history; A comprehensive examination and A medical decision making of moderate complexity. Counseling and/or coordination of care with other providers or agencies are provided consistent with the nature of the problem(s) and the patient's and/or family's needs. Usually, the problem(s) requiring admission are of moderate severity.
99306	Initial Nursing Facility Care –High Complexity	Per Day	Initial nursing facility care, per day, for the evaluation and management of a patient which requires these three key components: A comprehensive history; A comprehensive examination and A medical decision making of high complexity. Counseling and/or coordination of care with other providers or agencies are provided consistent with the nature of the problem(s) and the patient's and/or family's needs. Usually, the problem(s) requiring admission are of high severity.

SUBSEQUENT N	URSING FACILITY CARE		
99307	Subsequent Nursing Facility Care	Per Day	Subsequent nursing facility care, per day, for the evaluation and management of a patient, which requires at least two of these three key components. A problem focused interval history; A problem focused examination; A straightforward medical decision making Counseling and/or coordination of care with other providers or agencies are provided consistent with the nature of the problem(s) and the patient's and/or family's needs. Usually, the patient is stable, recovering, or improving.
99308	Subsequent Nursing Facility Care	Per Day	Subsequent nursing facility care, per day, for the evaluation and management of a patient, which requires at least two of these three key components. An expanded problem focused interval history; An expanded problem focused examination; Medical decision making of low complexity Counseling and/or coordination of care with other providers or agencies are provided consistent with the nature of the problem(s) and the patient's and/or family's needs. Usually, the patient is responding inadequately to therapy or has developed a minor complication.
99309	Subsequent Nursing Facility Care	Per Day	Subsequent nursing facility care, per day, for the evaluation and management of a patient, which requires at least two of these three key components. A detailed interval history; A detailed examination; Medical decision making of moderate complexity Counseling and/or coordination of care with other providers or agencies are provided consistent with the nature of the problem(s) and the patient's and/or family's needs. Usually, the patient has developed a significant complication or a significant new problem.
99310	Subsequent Nursing Facility Care	Per Day	Subsequent nursing facility care, per day, for the evaluation and management of a patient, which requires at least two of these three key components. A comprehensive interval history; A comprehensive examination; Medical decision making of high complexity Counseling and/or coordination of care with other providers or agencies are provided consistent with the nature of the problem(s) and the patient's and/or family's needs. The patient may be unstable or may have developed a significant new problem requiring immediate physician attention.
99318	Other Nursing Facility Services	Per Visit	Evaluation and management of a patient involving annual nursing facility assessment, which requires these three key components. A detailed interval history; A comprehensive examination; Medical decision making that is of low to moderate complexity. Counseling and/or coordination of care with other providers or agencies are provided consistent with the nature of the problem(s) and the patient's and/or family's needs. Usually, the patient is stable, recovering, or improving. (Do not report 99318 on the same date of services as nursing facility services codes 99304-99316)

DOMICILIARY, RI	EST HOME (e.g., Boarding Home) OR CUSTO	DDIAL CARE SERVICES	
New Patient			
99324	Domiciliary or Rest Home Visit – Low Severity New Patient	Per Visit	Domiciliary or rest home visit for the evaluation and management of a new patient which requires these three key components: A problem focused history; A problem focused examination; and A straightforward medical decision making Counseling and/or coordination of care with other providers or agencies are provided consistent with the nature of the problem(s) and the patient's and/or family's needs. Usually, the presenting problem(s) are of low severity. Physicians typically spend 20 minutes with the patient and/or family or caregiver.
99325	Domiciliary or Rest Home Visit – Moderate Severity New Patient	Per Visit	Domiciliary or rest home visit for the evaluation and management of a new patient which requires these three key components: An expanded problem focused history; An expanded problem focused examination; and Medical decision making of low complexity Counseling and/or coordination of care with other providers or agencies are provided consistent with the nature of the problem(s) and the patient's and/or family's needs. Usually, the presenting problem(s) are of moderate severity. Physicians typically spend 30 minutes with the patient and/or family or caregiver.
99326	Domiciliary or Rest Home Visit – Moderae to High Severity New Patient	Per Visit	Domiciliary or rest home visit for the evaluation and management of a new patient which requires these three key components: A detailed history; A detailed examination; and Medical decision making of moderate complexity Counseling and/or coordination of care with other providers or agencies are provided consistent with the nature of the problem(s) and the patient's and/or family's needs. Usually, the presenting problem(s) are of moderate to high severity. Physicians typically spend 45 minutes with the patient and/or family or caregiver.
99327	Domiciliary or Rest Home Visit – High Severity New Patient	Per Visit	Domiciliary or rest home visit for the evaluation and management of a new patient which requires these three key components: A comprehensive history; A comprehensive examination; and Medical decision making of moderate complexity Counseling and/or coordination of care with other providers or agencies are provided consistent with the nature of the problem(s) and the patient's and/or family's needs. Usually, the presenting problem(s) are of high severity. Physicians typically spend 60 minutes with the patient and/or family or caregiver.
99328	Domiciliary or Rest Home Visit – Significant New Problem Requiring Immediate Physician Attention New Patient	Per Visit	Domiciliary or rest home visit for the evaluation and management of a new patient which requires these three key components: A comprehensive history; A comprehensive examination; and Medical decision making of high complexity Counseling and/or coordination of care with other providers or agencies are provided consistent with the nature of the problem(s) and the patient's and/or family's needs. Usually, the patient is unstable or has developed a significant new problem requiring immediate physician attention. Physicians typically spend 75 minutes with the patient and/or family or caregiver.

			Session	differential WBC count (85025 or 85027 and 85004) OR Blood count,
S3645 HIV-1 Antibody Testing Session HIV-1 antibody testing of oral mucosal transudate. DRUG TESTING				
		Drug Screen, qualitative	Session	Drug screen, qualitative; multiple drug classes chromatographic method, each procedure.

80101	Drug Screen, single	Session	Single drug class method (e.g., immunoassay, enzyme assay), each drug class.
80102	Drug Confirmation	Per Procedure	Use 80100 for each multiple drug class chromatographic procedure. Use 80102 for each procedure necessary for confirmation. For chromatography, each combination of stationary and mobile phase is to be counted as one procedure. For example, if detection of three drugs by chromatograph requires one stationary phase with three mobile phases, use 80100 three (3) times. However, if multiple drugs can be detected using a single analysis (e.g., one stationary phase with one mobile phase), use 80100 only once.
80103	Tissue Preparation for Drug Analysis	Per Procedure	Tissue preparation for drug analysis.
URINALYSIS			
81002	Urinalysis without microscopy	Session	Non-automated, without microscopy
	Urinalysis	Session	Lab, urinalysis; qualitative or seminquantitative, except immunoassays.
	·	06331011	
81025	Pregnancy Test	Session	Urine pregnancy test, by visual color comparison methods.
CHEMISTRY			Taranta a a a
82055	Alcohol (ethanol); Any specimen except breath	Per Procedure	Alcohol (ethanol); any specimen except breath.
			Alcohol – Breath
82075	Breath Alcohol	Session	7 HOOTION BIOCHT
82270	Blood Occult	Each	Blood, occult, by peroxidase activity (e.g., guaiac), qualitative; feces, consecutive collected specimens with single determination, for colorectal neoplasm screening (ie, patient was provided three cards or single triple card for consecutive collection)
82271	Other Sources	Each	Other Sources
82272	Blood Occult	Each	Blood, occult by peroxidase activity (eg, guaiac). Qualitative, feces,
			single specimen (eg, from digital rectal exam)
82800	Gases, Blood	Session	Gases, Blood, pH only
IMMUNOLOGY	Γ=		T
86580	TB intradermal	Session	Tuberculosis, intradermal
HEMATOLOGY	AND COAGULATION		Complete (CPC) submeted (High Het RPC WPC and platelet count)
85025	Complete (CBC) automated	Per Procedure	Complete (CBC) automated (Hgb, Hct, RBC, WBC, and platelet count) automated differential WBC count.
85027	Hemogram automated	Session	Hemogram and platelet count, automated
85048	Leukocyte, (WBC),automated	Session	Leukocyte White Blood Cell (WBC), automated.
VENOUS			
	Manifestory of the state of the	0	
36415	Venipuncture	Session	Collection of venous blood by venipuncture
36416	Collection of Capillary Blood Specimen	Per Procedure	Collection of capillary blood specimen (e.g., finger, heel, ear stick).
82948	Blood, reagent strip	Per Procedure	Blood, reagent strip
THERAPEUTIC,	PROPHYLACTIC OR DIAGNOSTIC INJECTION	ONS	
90772	Injection	Each	Therapeutic, prophylactic or diagnostic injection (specify substance or drug); subcutaneous or intramuscular.
1		ı	arug), subcutaneous or intramuscular.
CARDIOGRAPH	Y		
93005	ECG without interpretation and report	Session	ECG Tracing only, without interpretation and report
93010	ECG report interpretation	Session	ECG, Interpretation and report only
NEUROLOGICA	L		
05046	FFC		Electroencephalogram (EEG) including recording awake and drowsy
95816	EEG	20-40 Minutes	(including hyperventilation and/or photic stimulation when appropriate).
PHYSICAL MED	ICINE AND REHABILITATION		
97110	Therapeutic Procedure	15 minutes	Therapeutic procedure, one or more areas, each 15 minutes; therapeutic
97530	Therapeutic Activities	15 Minutes	exercises to develop strength and endurance, range of motion and flexibility. Therapeutic activities, direct (one-on-one) patient contact by the provider (use of dynamic activities to improve functional performance), each 15
		1	minutes.
97532	Cognitive Skills Development	15 Minutes	Development of cognitive skills to improve attention, memory, problem solving, (including compensatory training), direct (one-on-one) patient contact by the provider, each 15 minutes
97533	Sensory Integrative Techniques	15 Minutes	Sensory Integrative techniques to enhance sensory processing and promote adaptive responses to environmental demands, direct (one-on-one) patient contact by the provider, each 15 minutes.
97535	Self Care training each 15 minutes	15 Minutes	Self care/home management training (e.g., activities of daily living (ADL) and compensatory training, meal preparation, safety procedures, and instruction in use of assistive technology devises/adaptive equipment) direct one on one contact by provider, each 15 minutes
97537	Community/work reintegration training each 15 minutes	15 Minutes	Community/work reintegration training (e.g. shopping, transportation, money management, vocational activities and/or work environment/modification analysis, work task analysis, use of assistive technology device/adaptive equipment), direct one-on-one contact by provider, each 15 minutes.
OTHER PROCE	DURES		
97003	Occupational Therapy Assessment	Session	Selectively includes the administrative of cognitive screening, perceptual tests and/or developmental tests. Provided by a certified occupational therapist or designated occupational therapy trainee supervised by a certified occupational therapist.
97004	Occupational Therapy Re-Evaluation	Session	Re-evaluation with recommendation for resident placement, supervision, and/or care based on the patient's level of functioning.
L	L	I	ana, or oare based on the patients level of fullotioning.

S0302	Early Periodic Screening	Session	Completed early periodic screening diagnosis and treatment (EPSDT) service (List in addition to code for appropriate evaluation and management service).
SPECIAL SERVICE	CES PROCEDURES AND REPORTS		ourvioo).
97802	Medical Nutrition Therapy	15 Minutes	Medical nutrition therapy; initial assessment and intervention, individual, face-to-face with patient, each 15 minutes.
99000	Handling of specimen for transfer	Session	Handling and/or conveyance of specimen for transfer from the physician's office to a laboratory
99075	Medical testimony	Session	Medical Testimony
99078	Educational services by physician in a group setting	Session	Physician educational services rendered to patients in a group setting (e.g., prenatal, obesity, diabetic, or instructions) For counseling groups of clients with symptoms or established illness, e.g., CD education groups.
S9445	Patient Education, Individual	Session	Patient education, not otherwise classified, non-physician provider, individual, per session.
S9446	Patient Education, Group	Session	Patient education, not otherwise classified, non-physician provider, group, per session.
99080	Special Reports / Forms	Session	Special reports such as insurance forms, more than the information conveyed in the usual medical communications or standard reporting form
HCPCS CODES	T		Ta
S9529	Routine Venipuncture	Session	Routine venipuncture for collection of specimen(s), single home bound, nursing home, or skilled nursing facility patient.
G0129	Occupational Therapy	Per Day	Occupational therapy requiring the skills of a qualified occupational therapist, furnished as a component of a partial hospitalization treatment program, per day
G0155	Social Worker, Home Health Setting	15 Minutes	Services of clinical social worker in home health setting, each 15 minutes
G0176	Activity Therapy	Session	Activity therapy such as music, dance, art or play therapies not for recreation, related to the care and treatment of patient's disabling mental health problems. 45 minutes or more = session.
G0177	Training and Education	Session	Training and education services related to the care and treatment of patient's disabling mental health problems. 45 minutes or more = session.
J0515	Cogentin per 1 mg	Session	Cogentin, Benztropin mesylate per 1 mg.
J1200	Benadryl up to 50 mg	Session	Benadryl, Diphenhydramine HCl up to 50 mg.
J1630	Haldol up to 5 mg	Session	Haldol, Haloperidol up to 5 mg.
J1631	Haldol per 50 mg	Session	Haldol, Haloperidol per 50 mg.
J2680	Prolixin up to 25 mg	Session	Prolixin Fluphenazine decanoate Prolixin, up to 25 mg.
J2794	Risperidone Injection	Each	Injection, risperidone, long acting, 0.5 mg.
J3490	Unclassified Drugs	Each Dispensing	Unclassified drugs.
M0064	Office visit for sole purpose of monitoring drugs	Session	Brief office visit for the sole purpose of monitoring or changing drug prescriptions used in the treatment of mental psychoneurotic and personality disorders
S0136	Clozapine	Each Dispensing	Clozapine, 25 mg., each dispensing.
S5000	Prescription Drug, Generic	Each Dispensing	Prescription drug, generic.
S5001	Prescription Drug, Brand Name	Each Dispensing	Prescription drug, brand name.
S9075	Smoking Cessation Treatment	Session	Smoking cessation treatment.
S9453	Smoking Cessation Classes	Session	Smoking cessation classes, non physician provider, per session
S9454	S9454 Stress Management		Stress management classes, non-physician provider, per session Smoking cessation counseling, individual, in the absence of or in addition to
G9016	Smoking Cessation Individual Counseling	Session	any other evaluation and management services, per session (6-10 minutes)
H1010 H1011	Non-Medical Family Planning Education	Per Session Per Session	Non-Medical Family Planning Education, per session. Family assessment by licensed behavioral health professional for state
H2010	Family Assessment Comprehensive Medication Services	15 Minutes	defined purposes. Comprehensive Medication Service, per 15 minutes.
H2011	Crisis Intervention Services	15 Minutes	Crisis Intervention Service, per 15 minutes
H2012	Behavioral Health Day Treatment	Per Hour	Behavioral Health Day Treatment, per hour
H2013	Psychiatric Health Facility	Per Diem	Psychiatric health facility services per diem.
H2014	Skills Training and Development	15 Minutes	Skills training and development, per 15 minutes

941	Recreational Therapy	Session	

ATTACHMENT B

FUNDING, MONTHLY CLOSE-OUT, AND BILLING INFORMATION

FUNDING

Carve-Out Funding: Funding and payments will be made, per consumer registration, for the following populations:

Population "Carve-Out"	SFY 2008 Rate Per Consumer
Assertive Community Treatment (ACT)	\$5,330
Deaf Seriously Mentally III (DMI)	\$4,500
Deaf Seriously Emotionally Disturbed (DED)	\$4,500
Deaf Gambling (DGM)	\$4,500
Deaf Chronic Addiction (DCA)	\$4,500
Gambling (GAM)	\$2,204
Methadone (SMO)	\$2,250
State Operated Facility (SOF)	\$18,220
Special (SPL)	\$18,220

Outcome Criteria Funding: Funding for Seriously Mentally III (SMI) Outcome Measures, Chronically Addicted (CA) Outcome Measures, and Seriously Emotionally Disturbed Children (SED) Outcome Measures will be available in CSDS on a quarterly basis. When dollars are added to CSDS, the provider will be notified, via email, that dollars are available. Typically, dollars will be added to CSDS the first full week of the quarter (July, October, January, and April). This is commonly referred to as Outcome Measures funding. Payment will be a per-quarter lump-sum payment.

Process Criteria Funding: Funding for Seriously Mentally III (SMI) Process Measures, Chronically Addicted (CA) Process Measures, and Seriously Emotionally Disturbed Children (SED) Process Measures will be available in CSDS three times during a state fiscal year – November, February, and May, as lump-sum payments. This funding mechanism is referred to as Process Measure funding. If dollars are added to CSDS for the Process Criteria funding, the provider will be notified, via email, that dollars are available in CSDS.

MONTHLY VOUCHER SUMMARY / CLOSE OUT

At any point during the month, an agency may elect to closeout the month and create a Monthly Voucher Summary. If the agency elects to manually close out the month and create the Monthly Voucher Summary the agency will not be permitted to close out the next month until after the 20th of the month. If an agency does not elect to closeout the month, the CSDS will automatically "closeout" on the 20th of each month (beginning August 20) and create a Monthly Voucher Summary. Once a Monthly Voucher Summary is created it may not be changed or edited.

	FY 2008 Voucher Summary Periods	CLOSEOUT DATES
1.	July 2007	Before or on August 20, 2007
2.	August 2007	Before or on September 20, 2007
3.	September 2007	Before or on October 20, 2007
4.	October 2007	Before or on November 20, 2007
5.	November 2007	Before or on December 20, 2007
6.	December 2007	Before or on January 20, 2008
7.	January 2008	Before or on February 20, 2008
8.	February 2008	Before or on March 20, 2008
9.	March 2008	Before or on April 20, 2008
10.	April 2008	Before or on May 20, 2008

11.	May 2008	Before or on June 20, 2008
12.	June 2008	To be manually closed out by the Provider no later than August 20, 2008. The June, 2008 Voucher Summary will only contain funding through the Fiscal Year (June 30, 2008).

The agency will then electronically request payment through the CSDS Web-site for reimbursement, if the agency is claiming funds. Please remember that FSSA/DMHA can only reimburse (or make payments) to an agency if an approved/activated contract is on file for SFY 2008.

NOTE: Each Provider needs to keep in mind that reimbursement may only occur once a month, for a total of 12 per state fiscal year.

AGENCY BILLING PROCEDURES

CSDS allows Providers to request payment through the CSDS web-site. The Voucher Activity screen on CSDS is used for the requesting of payment or electronically submitting vouchers. A link from the Voucher List to the Voucher Activity screen provides the graphical interface to request payment.

A funding request is made after a voucher has been created using the standard CSDS close month process. Funding information is available on the Voucher Activity screen. The user navigates to the Voucher Activity screen via the Voucher List. After the user requests payment, it is approved by two DMHA staff members. Finally, the FSSA Claim Management System (CMS) will electronically submit the request to the State Auditor's Office so that the direct deposit will occur.

Please see the attachment to this section entitled <u>"Electronic Payment Request Overview"</u> for detailed instructions on how to request payment.

END OF THE STATE FISCAL YEAR INFORMATION

The June 2008 Monthly Voucher Summary will not have an automatic closeout date. It will be the responsibility of each Provider to manually close out their fiscal year and finalize the June 2008 Monthly Voucher Summary. The Provider should not closeout their June 2008 Monthly Voucher Summary until they know they have COMPLETED AND ARE READY TO CLOSE OUT THE FISCAL YEAR. If a Provider processes a June 2008 Monthly Voucher Summary prior to all Transactions being submitted requesting funds (including those rejected for critical errors corrected), the Provider will close out their Fiscal Year and may not receive payment for all enrollments.

Historically we have referred to the final dollar amount on your contract as a **partial** <u>rate</u> billing. The June Voucher Summaries will still denote one consumer for the final amount, per population, on the remaining dollars.

ELECTRONIC PAYMENT REQUEST OVERVIEW

Introduction

MCPs will request payments through CSDS to the FSSA Claims Management Office electronically by clicking a single button.

This portion of the document includes the procedures used to submit electronic vouchers utilizing the CSDS system.

Requesting Payment

The Voucher Activity screen is used for the requesting payment or electronically submitting vouchers. A link from the Voucher List to the voucher activity screen provides the graphical interface to request payment.

A funding request is made after a voucher has been created using the standard CSDS close month process. Funding information is available on the voucher activity screen. The user navigates to the voucher activity screen via the Voucher List. After the user requests payment, it is approved by two DMHA staff members. Finally, the FSSA Claim Management System (CMS) will electronically submit the request to the State Auditor's Office so that the reimbursement will occur (direct deposit).

The Voucher Activity screen provides an interface for payment processing information and requests. Below is a screenshot illustrating the Voucher Activity screen.

The screen is divided into three sections. The first section is labeled "CMS Funding Activity" and provides an overview of the current state of a funding request. The second section label is "DMHA Approval Activity" and provides additional feedback about the approval process in the CSDS system. The third section title is "Provider Contract Amounts at Voucher Creation". This is the data that is also present at the bottom of the voucher summary report. It is a point in time display of the contract amounts when the voucher was created.

The CMS Funding Activity columns are described below:

- CPID: Claim Program ID is the state assigned value linked to provider's contract
- Requested Payment Date: Date the provider requested payment.
 - o This value will be populated after clicking "Request Funding For This Voucher"
- DMHA Approval 1 Date: Date of first approval by DMHA staff.
 - This value is populated when a DMHA staff member releases the payment request from CSDS to the CMS system.
- DMHA Approval 2 Date: Date of second approval by DMHA staff.
 - This value is populated when a second DMHA staff member releases the payment request in the CMS system.
- CMS Check Date: Date the check is printed from CMS.
 - o This value is populated with the date the check was printed in CMS.
- CMS Check Number: Check number of payment for request.

Payment can only be requested one time per voucher and should only be performed if the provider is certain they wish to submit the request to the DMHA. To request funding click the "Request Funding For This Voucher" button.

The CSDS Request Payment function is limited to those MCP staff members who have voucher creation authority. For questions or assistance, please contact Christi Hickman, CSDS Funding Specialist, at 317.232.7918 or Christi.Hickman@fssa.in.gov.
